### Overview

The UK Construction industry is one of the largest in the world and makes a vital contribution to the economy. However, there is a skills shortage in the industry and this work-based course ensures that staff meet national standards.

### Who would benefit from this qualification?

This course is aimed at Apprentices/trainees and adults who are currently employed within the carpentry area of the construction industry.

### Course Content

Candidates must achieve the following three mandatory units plus three optional units: Conform to general workplace safety; Conform to efficient work practices; Move and handle resources.

### Entry Requirements:

There are no formal entry requirements for candidates undertaking this NVQ, however employers must ensure that candidates have the potential and opportunity to gain evidence for the qualification in the work place.
