

SHORT COURSES

IOSH WORKING SAFELY

Course Content

Working Safely meets the Government's guidelines for introductory health and safety training and is 100% match to the Health & Safety Executive's 'passport' syllabus.

The course includes topic areas:

- Introducing working safely – emphasises the human experience behind accident statistics and the importance of personal responsibility.
- Defining hazard and risk – focusing on the six broad hazard groups delegates are asked to think about the hazards and risks they face in their own workplace.
- Identifying common hazards – the main issues are covered in this module. Each area is backed with examples and recognisable scenarios.
- Improving safety performance – this section focus on how everyone plays a part in health and safety and encourages delegates to contribute to processes that are commonly seen as the responsibility of the manager or supervisor.
- Protecting our environment – a short introduction to waste and pollution and how team members can get involved in reducing environmental impact.

Assessment Method

Practical and written assessments which must be submitted after the training course.

Certification

This course is certified by the Institute of Safety and Health (IOSH).

Course Dates

Please see the Short Course Timetable for the next scheduled dates. Also available as a bespoke course delivered on your company's premises.

COURSE CODE	CR5SCFC-SR5FCWS
COURSE LENGTH	1 DAY
COURSE COST	£150 PER PERSON

Working Safely will help to focus individuals on why health and safety is important and how they can make a real difference to the wellbeing of themselves and others through changing their behaviour.
