

NEWS RELEASE! NEWS RELEASE! NEWS RELEASE!

**CAMBRIDGE REGIONAL COLLEGE TO HOLD FUN AND
INFORMATIVE OPEN DAYS**

Thursday 30th October 2008

Cambridge Regional College will be opening its doors to the public next weekend, offering visitors the chance to have a look at the outstanding facilities available and giving them the opportunity to meet staff and current students at the College.

CRC is one of the largest and best-regarded vocational training colleges in the area, offering practical, work related qualifications to those who prefer more of a 'hands-on' approach to learning. The College offers a wide range of practical training in areas such as Art & Design, Construction, Engineering, Hairdressing and Hospitality & Catering.

Open Days offer an ideal opportunity to find out more about the College and to get a taste of College life and find out about the extensive range of full-time courses and Apprenticeships available. Representatives from all Academies will be on hand to talk to and provide information about courses, as well as students who are currently studying at CRC who can tell you what life at College is really like.

There will be a chance to watch various demonstrations, as well as participate in hands-on activities, such as pizza making, radio broadcasting, dance workshops, fingerprinting, media make-up and much more. There will also be an opportunity to have a look at how the £multi-million single site project is progressing.

The Open Days take place on Friday 7th November between 5.30 – 8.30pm and Saturday 8th November between 9.30am -1 pm. Both the Science Park campus and the City Centre campus will be open to visitors with a free shuttle bus running between them. Please visit the City Centre campus on Newmarket Road for information about Catering and Hair & Beauty courses.

For more information, please contact the College's main Reception on 01223 418200 or visit our website at www.camre.ac.uk
