

PRESS RELEASE! PRESS RELEASE! PRESS RELEASE!

**BUILDING SERVICES TRAINEES CELEBRATE
SUCCESS AT CAMBRIDGE REGIONAL COLLEGE**

Tuesday 30th October 2007

Two Apprentices from Cambridge Regional College (CRC) attended the SummitSkills Annual Training Awards ceremony last week in celebration of their success in the Regional categories.

Adam Lambert (18) won the Junior Apprentice of the Year award in Heating & Ventilation and Carl Briggs (22) won the award for Senior Apprentice of the Year in Heating & Ventilation for 2006/2007, in the Eastern Counties Regional Training Awards.

The ceremony was held at the British Racing School in Newmarket on 23rd October, to celebrate the best of apprentices and engineers across the UK. The event was a huge accolade for the winners and was attended by an audience of parents, families, representatives from trade associations and training providers.

Adam Lambert is in his second year of an Apprenticeship in Heating & Ventilation and works four days a week at Munro Mechanical Services. Adam said, "I am pleased to receive the award and after finishing Level 2 this year, I look forward to moving on to Level 3 next year".

Carl Briggs finished his Advanced Apprenticeship in Heating & Ventilation at CRC and continues to work at Aqua Mechanical Services. On winning the

MF

award

he said, "I would like to thank CRC for nominating me for this award and I am looking forward to continuing my training with the Aqua Group".

The winners of the SummitSkills Awards were nominated by Martin Johnson, the Vocational Trainer Assessor for Heating and Ventilation at CRC. The nominees must demonstrate that they have met and exceeded the category criteria expected of them. Nominees are also judged on aspects such as work ethos, consistency, dedication, effort, results and the ability to work with others.

SummitSkills is the Sector Skills Council for the building services engineering sector, which was created by employers, for employers to address five key objectives: to alleviate skills gaps, improve productivity, provide career progression, develop a competent workforce and champion the sector's skills agenda.
