GREAT CAREERS START HERE

CAMBRIDGE REGIONAL COLLEGE

FULL-TIME

PROSPECTUS

2019-20
Choosing your next step is exciting, but might be a little daunting too. There is a lot of choice – of places to study, of courses, and of possible careers, but we at CRC are here to help you to make a great choice.

Whether you already know what you want to do, or are still exploring areas that interest you, we can help you on your journey by providing you with the best opportunities to gain the skills, knowledge and qualifications to succeed.

As one of the top 5% of colleges in the country,* we offer exceptional, specialist training in a huge range of subjects. We always put your success at the heart of everything we do.

We hope you will find this prospectus useful in exploring your options, learning what college life is all about and finding out how you can achieve your goals and ambitions.

Mark Robertson, Principal and Chief Executive

* For Level 3 all age achievement 2016/17

Studying with us means much more than just gaining a qualification in your chosen subject area. Our study programmes are designed to provide you with the skills that are essential for employment, personal and professional development.

**YOUR STUDY PROGRAMME**

We are dedicated to preparing you for future success. Central to this are our #WeAreCRC values, which are embedded throughout your study programme. We will help you grow in confidence and develop the skills sought after by employers.

---

**ENGLISH AND MATHS**

English and maths are highly valued by employers and at CRC you will continue to develop your skills in both. If you have not yet gained a GCSE grade 9-4 (or A*-C) in English and/or maths you will attend classes to study for nationally recognised qualifications. If you have already achieved grade 9-4 you will continue to develop your skills.

**WORK EXPERIENCE OR INDUSTRY PLACEMENTS**

All study programmes will involve some work experience. Some courses will be part of the new Industry Placement initiative and you will be required to undertake approximately 315 hours experience in the workplace. Look out for this symbol to see which courses require Industry Placement.

---

We are dedicated to preparing you for future success. Central to this are our #WeAreCRC values, which are embedded throughout your study programme. We will help you grow in confidence and develop the skills sought after by employers.
## Apprenticeships

Want to start work straight away, learn and gain a qualification in the workplace whilst you are earning money? Then an Apprenticeship could be the pathway for you.

### WHAT IS AN APPRENTICESHIP?

Apprenticeships combine work and study by mixing on the job training and classroom learning. You’ll be employed to do a real job, with a real wage and other employee benefits whilst studying for a formal qualification.

Apprentices follow an approved programme, which means you’ll gain a nationally-recognised qualification at the end of your apprenticeship that will enable you to progress in your career and your studies.

We are a leading provider of Apprenticeship programmes, with regular assessments and progress reviews. We work with more than 1450 local, regional and national employers to offer you the skills that lead to great careers.

### BENEFITS OF AN APPRENTICESHIP

- Earn a wage while you learn
- Receive ‘on the job’ training
- Gain the skills that give you the edge in the job market
- Benefit from an individual learning programme
- One-to-one tuition from CRC’s specialist industry experts
- Opportunities to progress into management or higher education

### STARTING YOUR CAREER

We work with employers in all sectors from engineering and catering, to science, computing and many more.

By studying an Apprenticeship you will already be on the first step of your career, gaining great work experience.

### WHAT QUALIFICATIONS DO I GET?

Studying for an Apprenticeship means you will achieve a qualification that is relevant to your industry. Often these will be awarded by a relevant professional body to your specialist, for example, in accountancy your qualification might be awarded by the Association of Accounting Technicians. There may be a requirement for you to continue to work towards a qualification in English, maths and ICT.

### ENTRY REQUIREMENTS

#### LEVEL 2

- English and maths GCSE at grade 3 (D) or above.

#### LEVEL 3

- English and maths GCSE at grade 4 (C) or above.

#### LEVEL 4/5

Entry requirements may vary dependent on the subject area.

HOW TO APPLY FOR AN APPRENTICESHIP

1. Find the Apprenticeship vacancy that you are interested in, or express and interest in an Apprenticeship by completing a CRC application and joining our Talent Bank online at www.camre.ac.uk/apprenticeships.

2. Download the application form or apply online by following the link on our website.

3. Follow the application process and submit your application online or post your form to: Apprenticeship Team, Cambridge Regional College, Kings Hedges Road, Cambridge CB4 2QT.

If you have any questions about our Apprenticeship programmes and how they could help kickstart your career, please contact our Apprenticeships Team:

training@camre.ac.uk 01223 418778

ACCESS TO EMPLOYMENT

Access to Employment is a short, intense study programme for 16 – 18 year olds who are currently not in education or employment. This excellent programme is designed to support and prepare you in searching for work either as an apprentice or as an employee within an organisation.

This is a study programme that is specifically tailored to the needs of students, designed to help you find a job or apprenticeship and can be accessed throughout the year.

FLEXIBLE AND REWARDING

Access to Employment is a flexible and adaptable study programme that is focused on giving young people the skills, support and guidance required for entering the workplace or being successful in obtaining an apprenticeship.

PROGRAMME CONTENT

The programme includes study elements such as:

- CV Writing
- How to Apply for Apprenticeships and Jobs
- Interview Skills, Hints and Tips
- Team Working
- Communication Skills
- General Customer Service
- Workplace Behaviours
- Personal Development and Life Skills
- Functional Skills in Maths and English (if required)
- Work Placements and Trials

The college offers a wide range of enrichment activities, from Zumba classes and sports tournaments to student-run clubs and money management workshops. You are encouraged to get involved in college life, and will be supported to set up clubs and societies. A large number of students organise events for charity – cake stalls and sponsored events are regular features.

STUDENT AMBASSADORS
The #WeAreCRC Ambassador Programme gives you the opportunity to get involved in supporting college events, activities and outreach projects, gaining valuable volunteering hours and an insight into different areas of employment.

STUDENTS’ UNION
As a student at CRC you automatically become a member of the Students’ Union. The Union aims to enhance your experience at college by supporting societies and clubs and by organising events and awareness raising campaigns on issues that affect you as students. Students’ Union committee members are elected each year and represent the student body in order to ensure that you have a voice within the college.

Once enrolled you are eligible for a National Union of Students (NUS) card that entitles you to a wide range of discounts in many places such as high street stores, cinemas and restaurants (there is a small charge for the NUS card).

*For Level 3 all age achievement 2016/17
SUPPORT
WE ARE HERE TO HELP YOU SUCCEED

Exploring your options and finding the right career path for you can be daunting. Our expert careers advisors can provide you with impartial information, advice and guidance to help you make informed decisions about your next steps.

Money matters shouldn’t stop you from coming to college. Our Bursary and Finance Advisors are available to advise you on sources of financial help including any bursaries or support funds that may be available to you to help with meals, transport or course costs. See more on pages 154-155.

Sometimes learning how you can excel or get over barriers to success can be a challenge. We have a team of progression coaches who can support your studies, to help you stay on track by challenging and motivating you to be the best you can be.

Specialist learning support staff will work with you to develop your independent learning skills and to ensure that you acquire the knowledge and skills to approach your studies and learning. The learning support team will assist you with developing a range of learning support including: communication support; dyslexia and dyscalculia support; strategies for learning including further literacy and numeracy support; approaches to learning - which will help you to develop greater resilience; and strategies such as organisational and study skills to help you approach your studies, so that you can achieve your goals.

Specialist learning support staff provide personal support to students with a broad range of disabilities. Support will be personalised to your own individual needs.

Visually impaired/Blindness – Sighted guides, Braille, adapting materials, visual description and advice on assistive technologies to enable you to access computer programmes.

Physical Access needs – Mobility assistance, personal care, note taking and advice on assistive technology.

Learning Disabilities – Support to empower you to become more confident in communication, English and maths.

D/deafness – British Sign Language or Sign Supported English Communications, note-taking, mentoring and personalised support to help you develop your writing skills.

Autism – Study and communication strategies through personalised guidance and mentoring to support you to become more independent as you prepare for adulthood including life skills.

Language impairment – Develop your confidence with mentoring support, note taking, assistive technologies and adapted resources.

Education, Health and Care support – Experience Learning Support Managers will provide you with the initial guidance on the process and procedures for access to these assessments.

We work in partnership with fellow agencies to identify and support vulnerable learners and those with additional needs prior to the start of their study programme.

Our Art & Design courses attract promising young artists from across the region who are looking to work at the highest of standards. Our students achieve excellent results and progress to top universities and art schools across the country.

You will learn from artists and designers who are current practitioners and experts in their fields, from art, design, fashion, graphic design, 3D and textiles to contemporary fine art, digital manipulation and more.

Guest speakers from industry, live assignments, competitions, internal and external commissions and work experience give a real insight into working as a practising artist or designer in industry. End-of-year summer exhibitions provide a fantastic showcase opportunity for your work.

Past students on these courses have gone on to study film-making, architecture, graphic design, fine art, fashion management and illustration at universities such as Leeds, Nottingham, the University of the Arts London and Norwich University of the Arts, Chelsea, Central St Martins, Goldsmiths, The Slade and De Montfort University.

Why Choose CRC?

- Fantastic opportunities to work on commissions and complete work experience
- Outstanding facilities in all creative areas
- Superb public exhibitions to showcase student work
- Lecturers are practising artists and designers
- Exceptional achievement and progression to employment and HE

CC LEVEL 1
UAL Diploma in Art & Design
This one-year programme provides you with the skills and knowledge to progress to further study and training in both art and design and photography.

Specialist Skills
- Art & design practice
- Problem-solving skills
- Creative thinking & research skills
- Self-directed study techniques
- Communications skills

Progression Opportunities
Progression is onto Level 2 Art & Design.

LEVEL 2
UAL Diploma in Art & Design
This one-year programme provides you with the skills and knowledge to progress to further study and training in a range of art and design subjects, including fine art, photography, graphic design, textiles with fashion product design and design crafts.

Specialist Skills
You will explore, challenge and develop:
- Art & design practice
- Creative thinking skills
- Problem-solving skills
- Research skills
- Self-directed study techniques
- Communications skills
- Photography

Progression Opportunities
Excellent progression to Level 3 Art & Design or into an Apprenticeship or employment.
UAL Level 3/4 Diploma in Foundation Studies - Art & Design (post 18)

This pre-degree intensive course is an experience which will form the foundation of your professional arts practice for the rest of your professional life. Nurturing your understanding of global art, encouraging risk taking and invention this Study Programme will allow you to work to your strengths and embrace areas for development. This highly regarded qualification has helped many students to progress onto outstanding places in Higher Education and win national awards and commissioned work.

Specialist Skills
- Critically review the effectiveness and appropriateness of methods, actions and results
- Critical and contextual awareness of different perspectives and approaches within art, design and related subjects
- Employability skills and industry experience
- Communication skills
- Ability to work cross discipline and at Level 4 through the final major project
- Employability skills

Progression Opportunities
The programme is delivered over one year and is a progression route for learners who have completed A Levels or the Level 3 Extended Diploma in Art & Design and want an extra year to broaden their awareness, applied thinking and extend their critical understanding and independence. This qualification helps you to progress on to BA/BSc/FdA at a Higher Education institution, an Advanced Apprenticeship within the wider commercial/creative based industries or employment e.g. a design practice, photography assistant or self-employment.

"CRC gave me a great start and the art department facilities are some of the best I have seen. I have a passion for design – I design stock pieces for Cellini Jewellers and work with my customers to design one-off, bespoke items of jewellery. It was fantastic to win Gold, Silver and Bronze in the Jewellery Oscars and crown it all with the Goldsmiths Company award for 2D Designer of the Year."

Jack Bainbridge
Award-winning Jewellery Designer Former Art & Design student
A qualification in Beauty Therapy can lead to an exciting range of careers in a salon, a spa, working abroad or even on a cruise liner. You may use it as a springboard to manage or run your own salon.

There are a wide range of programmes for you to choose from, depending on your skills and qualifications. You can even specialise in media make-up and create special effects for film, television or theatre - see pages 88-93 for more details.

All programmes are delivered in our state-of-the-art training salons. We also have commercial salons where you will be able to gain valuable real-life work experience.

Many of our beauty students compete in the country’s top skills competitions with great results. The college has also been chosen to host a number of WorldSkills events - a recognition of our superb facilities.

**WHY CHOOSE CRC?**

- Real work experience in our fabulous commercial salons
- Industry-qualified & experienced teaching staff
- Outstanding facilities & purpose-built training salons
- Highly successful student achievement in national competitions
- Close links with employers providing great employment prospects

**WHY CHOOSE BEAUTY THERAPY?**

A qualification in Beauty Therapy can lead to an exciting range of careers in a salon, a spa, working abroad or even on a cruise liner. You may use it as a springboard to manage or run your own salon.

This exciting new Level 3 Advanced Technical Diploma in Beauty & Spa Therapy offers you a nationally recognised qualification at Level 3 and aims to provide you with a range of specialist practical skills and technical knowledge, which will equip you to seek employment as a fully qualified therapist or for further training within the Beauty & Spa Therapy Industry.

Specialist Skills
- Body massage
- Facial & body electrotherapy treatments
- Electrical epilation

GREAT CAREERS START HERE
A career in business is versatile, exciting and challenging, opening the door to a wealth of opportunities. Our business courses will put you on the road to a successful career.

Our courses will help you develop your entrepreneurial skills to give you a wider understanding of the business market. You can learn how to set up and run your own business, build networks and market and sell your ideas to potential sponsors and partners.

Our Level 1 and 2 programmes enable you to gain the right skills to help you progress into employment or on to our Level 3 programmes, which can lead to a degree course.

Past students have gone on to study at universities including Durham, Leeds Met, UEA and Manchester Met, in subjects ranging from marketing and events management to international business and finance. Students can also choose to study Higher Education courses in business at CRC, or further their qualifications through an Apprenticeship.

Level 1
- Introductory Diploma in Business

Level 2
- BTEC Certificate in Business
- Intermediate Apprenticeships in Business Administration, Accountancy, Customer Service, Sales, Team Leading

Level 3
- BTEC 90 Credit/Diploma/Extended Diploma in Business
- Advanced Apprenticeships in Accountancy, Business Administration, Customer Service, Sales, Team Leading, Digital Marketer and Social Media & Digital Marketing

Level 4/5
- BTEC Level 4 HNC Diploma in Business
- BTEC Level 5 HND Diploma in Business
- Higher Level Apprenticeships in Business Administration, Management & Leadership and Human Resources Management

WHY CHOOSE CRC?
- Opportunities to develop business skills and knowledge through enterprise activities
- Excellent progression routes to university
- Great work experience opportunities to boost job prospects
- Experienced tutors with industry and management experience
- Close links with local businesses
- Chance to start building your business networks

WHY CHOOSE WHAT WE OFFER AT CRC?

WHY CHOOSE CRC?

WHY CHOOSE WHAT WE OFFER AT CRC?

WHY CHOOSE CRC?

WHY CHOOSE WHAT WE OFFER AT CRC?

WHY CHOOSE CRC?
CC  LEVEL 1
Introductory Diploma in Business
The core of this study programme consists of English, maths and IT and the development of your skills and your confidence. You will experience a ‘taster’ of business-related subject areas and build your employability skills. You will also complete 30 hours of work experience.

Specialist Skills
• Good oral & written business communication
• Enterprise skills
• Good teamwork
• Excellent time-keeping & organisational skills

Progression Opportunities
The Level 1 course is a platform to develop your confidence and knowledge to progress to our Level 2 Certificate/Extended Certificate/Diploma in Business or to another course in the college.

LEVEL 2
BTEC Certificate in Business
This course will give you a range of transferable business skills and allows you to specialise in an area of business that interests you. Live assignments and work experience will build your understanding and experience of different sectors.

Specialist Skills
• Business awareness skills
• Communication skills including email, reports, summaries, letters & presentations
• Ability to communicate key points
• Marketing & enterprise
• Customer service

Progression Opportunities
Options include progressing to the Level 3 in Business, pursuing an Apprenticeship in Business Administration or Accountancy as well as seeking employment in sales, marketing, retailing or customer service.
LEVEL 3
BTEC 90 Credit/Diploma/Extended Diploma in Business
This programme will give you a range of transferable business skills allowing you to specialise. Live assignments and work experience will build your understanding of different business sectors. You will take part in the Young Enterprise scheme to develop a business idea, plan and shape a marketing campaign and sell your ideas/product. Teamwork, negotiation and project management skills will be developed plus your ability to present, manage finances and write a company report.

Specialist Skills
- Experience in setting up a business
- Develop marketing strategies & apply to a client brief
- Business planning & pitching
- Research techniques
- Enterprise skills & innovative ideas

Progression Opportunities
Progression to an Apprenticeship or Higher Education BA/BSc(Hons)/FdA/HNC/HND course, straight into employment within accounts, sales, marketing, advertising, recruitment, events management or retailing or set up your own business.

LEVEL 4/5
BTEC Level 4 HNC Diploma & BTEC Level 5 HND Diploma in Business

“I have always had an interest in business. The tutors are really good and are very supportive.”
Killian Carline
Level 3 Business

WINNER:
BUSINESS STUDENT OF THE YEAR 2018
MATTHEW BARTON
Our specialist Care, Health and Early Education programmes from Level 1 to Level 5 will give you real and practical experience working with children and adults and can lead to a wide range of careers in health, care and early education.

You will be taught and supported by experienced professionals and will receive valuable work experience with local employers, developing the skills and knowledge needed to be successful in your career.

Careers in Health and Social Care and Early Education are thriving and the Cambridgeshire area has a growing need for well-qualified staff in hospitals, care homes, day nurseries and primary schools.

Our Level 3 Health & Care students benefit from direct work experience at internationally-renowned Addenbrooke’s Hospital. Students on our Early Years Education courses undertake valuable work experience in nursery settings, pre-schools and primary schools throughout the year.

Past students have gone on to study for a degree in childhood studies, criminology, social work, adult and children’s nursing, teaching and occupational therapy at universities including ARU, Birmingham City and Cardiff. Apprenticeships in the health service and children’s nurseries are also a popular choice.

WHY CHOOSE CARE, HEALTH & EARLY EDUCATION?

WHY CHOOSE CRC?

- Level 3 Early Years students gain a licence to practice and Early Years Educator status
- Great links with Addenbrooke’s Hospital providing unique work experience opportunities
- Substantial work experience through industry placements
- Highly qualified and professionally experienced tutors
- Guest speakers offer introductions to career pathways in the sector
- Great job opportunities through fantastic employer links

• Health and safety

Progression Opportunities
Progress to our Level 3 Catering course or other Level 3 courses in the college. You can also apply for an Apprenticeship.

LEVEL 3
City & Guilds Level 3 Diploma in Professional Cookery

This one-year programme has been designed to prepare you for employment in first class restaurants with international reputations for gastronomic excellence. You will learn a range of advanced cookery skills and techniques and we aim to equip you with artistic and creative cookery skills to haute cuisine standards.

Specialist Skills
• Food safety
• Health and safety
• Supervisory skills
• Gastronomy and food culture
• Sourcing produce
• Food product development
• Production of high quality restaurant food

Progression Opportunities
Apply for employment as a professional chef in a wide range of high quality national and international restaurants throughout the catering industry.
Do you want to work at the cutting edge of software and web development? We offer a range of programmes giving you the skills to use programming languages and develop your creative skills. Desktop or network support engineers need to develop logical, troubleshooting skills as well as having a good knowledge of computer and networking systems.

Underpinning these very specific skills and wider knowledge, you will need a raft of ‘soft skills’ – including communication, organisation and team work - plus a ‘can do’ attitude to progress in the IT industry. Our computing courses will help you enhance all of these skills.

Past students have gone on to study computer science, games development, ICT, infotech management, accounting and finance and computer networks at universities across the country, including Newcastle, Lancaster and Westminster. Many choose to go straight into work in the local IT sector or into an Apprenticeship to further their qualifications.

**WHY CHOOSE CRC?**

- Great work experience opportunities to boost job prospects
- Emphasis on up-to-date and relevant industry knowledge and employability skills
- Excellent progression to employment, Apprenticeships or Higher Education
- Valuable communication and interpersonal skills
- Cambridgeshire is a thriving hub for the high-tech industry

**WHAT WE OFFER AT CRC**

**Level 1**
- BTEC Certificate/Diploma Vocational Studies (IT Practitioners)

**Level 2**
- BTEC Certificate in Information & Creative Technology
- Intermediate Apprenticeships in IT Application Specialist & IT Professional

**Level 3**
- BTEC Foundation Diploma/Diploma/Extended Diploma in Computing
- Diploma in ICT Systems & Principles
- Advanced Apprenticeships in IT Application Specialist, IT Professional and Infrastructure Technician

- Hardware assembly
- Basic web page design

**Progression Opportunities**
Progression to our Level 2 Extended Certificate/Diploma (Merit required) or Apprenticeship or employment in a junior role.

**LEVEL 2**

**BTEC Certificate in Information & Creative Technology**

This programme will give you a sound insight into the rapidly changing world of IT and offers you the chance to specialise in either IT software or IT hardware. Develop your skills and knowledge in programming, web development and animation through the software route, or follow the technical route if you have a keen interest in the inner workings of computer systems and networks.

**Specialist Skills**
- Installation and configuration of software and hardware
- Programming skills
- Web development
- Building mobile apps
- New technology
- Real life projects/simulated scenarios
- Games development

**Progression Opportunities**
Progression to our Level 3 Computing courses, an Apprenticeship or employment as an IT support technician, junior web developer or helpdesk technician.
LEVEL 3
BTEC Foundation Diploma/Diploma/Extended Diploma in Computing

This programme will give you an excellent grounding in the rapidly changing computing industry and is an ideal progression route for those wanting to specialise in software programming, coding, hardware and networking. You will develop a sound understanding of the expectations, opportunities and roles in the industry, and how computing technologies affect all aspects of our daily lives including social, employment and global commerce.

Specialist Skills
- Live projects/simulated scenarios
- Hardware
- Programming
- Mobile app design
- Database design & management
- Project management including testing & networks
- Network security

Progression Opportunities
Excellent progression to Higher Education courses e.g. BA/BSc(Hons)/FdA/HNC/HND Games Development, Computer Science, Animation or into an Apprenticeship or employment.

Diploma in ICT Systems & Principles

This fast-track one-year programme combines hardware, software and networking, which you can customise to meet your own interests and employment aspirations. This hands-on course will give you a high level of practical skills and is ideal for progression straight into employment.

Specialist Skills
- Web development & software testing
- Designing & maintaining network software components
- Network management & security
- Testing ICT systems
- Maintaining ICT equipment & systems
- Installing, configuring & upgrading ICT software
- Customer Support
- Technologies of the Internet

Progression Opportunities
Progress straight into employment as an IT trouble shooter or technician. This course carries UCAS points to help you progress to university.

&W BTEC H H"I love computing and solving people’s IT problems. As an apprentice every day is different – I could be installing new software or upgrading and installing new hard drives to the PCs, and I’m learning all the time. I study in college one day a week which gives me a chance to go over anything I’m unsure about and to find out more in-depth information about one specific topic, for example networking topologies."

Chloe Trainer
IT & Audio Visual Apprentice at CRC

Apprenticeships

Want to earn while you learn? An Apprenticeship could be for you.

We offer:
- Level 3: Infrastructure Technician
- Level 2/3: IT Application Specialist (for IT users)
- Level 2/3: IT Professional

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 10-11 or www.camre.ac.uk/apprenticeships
At CRC we have some of the best construction facilities in the region with professionally-qualified and experienced tutors to provide you with the knowledge and skills to progress your future within this fast-evolving sector.

There are many different careers within the construction sector, from architecture and civil and structural engineering, to building services and surveying. The construction sector is booming again and there is great demand for skilled workers in all fields, including carpenters, bricklayers, plumbers and project managers.

Past students have gone on to study architectural technology, project management, quantity surveying and building surveying at universities including ARU, Westminster, Plymouth and Leeds. Students can also go straight into work in the busy construction sector or choose to become an apprentice, for instance on a Civil Engineering Apprenticeship.

WHY CHOOSE CRC?

- Fantastic specialist construction workshops
- Great track record of moving full-time students into Apprenticeships
- Close links with employers for great job opportunities
- Training in the latest sustainable methods of construction
- Teaching by experienced industry specialists

- ARU Foundation Degree in Construction Management
- ARU Foundation Degree in Architectural Technology
- 240 Credit BTEC Level 3/4 Higher National Diploma Interior Design (pending approval)
**LEVEL 1**

**Diploma in Carpentry & Joinery**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a site carpenter or bench joiner.

**Specialist Skills**
- Maintain and use carpentry and joinery hand tools
- Prepare and use portable power tools
- Produce woodworking joints
- Health, safety and welfare in the construction industry

**Progression Opportunities**
Progress to Level 2 Diploma in Site Carpentry or Bench Joinery or further training with an Apprenticeship or employment.

**Diploma in Bricklaying**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a bricklayer.

**Specialist Skills**
- Construct block, brick and cavity walling

**Progression Opportunities**
Progress to Level 2 Diploma in Site Carpentry or Bench Joinery or further training with an Apprenticeship or employment.

**Diploma in Painting & Decorating**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a painter and decorator.

**Specialist Skills**
- Prepare surfaces and apply paint and foundation paper
- Produce standard decorative finishes
- Erect and dismantle access equipment and working platforms

**Progression Opportunities**
Progress to Level 2 Diploma in Site Carpentry or Bench Joinery or further training with an Apprenticeship or employment.
**CC Diploma in Plumbing**
This one-year programme will give you the basic skills, knowledge and understanding in Plumbing. This course may be available at Huntingdon Campus in 19/20.

**Specialist Skills**
- Working safety
- Domestic plumbing systems
- Pipework jointing techniques
- Communicating technical information
- Forming and assembling pipework systems

**Progression Opportunities**
Progress to the Level 2 Plumbing pathway or further training with an Apprenticeship or employment.

---

**CC Diploma in Construction**
This one-year introduction to the construction industry will develop your practical skills and knowledge in a number of construction craft areas.

**Specialist Skills**
- Practical skills in joinery, bricklaying, painting and decorating
- Construction of basic masonry and timber structures
- Prepare and apply paint for surface finishes
- Safety in the construction industry

**Progression Opportunities**
Progress to a Level 1 Craft programme in your chosen trade. You can go on to further training with an Apprenticeship or employment.

---

**CC Diploma in Electrical Installations**
This one-year programme will give you the basic skills, knowledge and understanding needed to progress to a full-time Level 2 pathway in Electrical Installations or an Apprenticeship.

**Specialist Skills**
- Working safety
- Domestic electrical systems
- Electrical circuits
- Communicating technical information

**Progression Opportunities**
Progress to the Level 2 Electrical pathway or further training with an Apprenticeship or employment.

---

**LEVEL 2**

**Level 2 Diploma in Site Carpentry**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a site carpenter.

**Specialist Skills**
- Structural carcassing operations
- First and second fixings
- Maintain non-structural carpentry works
- Understanding construction drawings
- Construction technology

**Progression Opportunities**
Progress on to further training with the college, an Apprenticeship or employment.

---

**Level 2 Diploma in Bench Joinery**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a bench joiner.

**Specialist Skills**
- Understanding construction information, quantities
- Communication
- Construction technology
- Set up and operate cutting and shaping machinery
- Produce setting out details for routine joinery products
- Mark out from setting out details for routine joinery products
- Manufacture routine joinery products

**Progression Opportunities**
Progress on to further training at the college, an Apprenticeship or employment.

---

**Level 2 Diploma in Bricklaying**
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a bricklayer.

**Specialist Skills**
- Constructing solid walling incorporating isolated and attached piers
- Constructing cavity walling
- Construction technology
- Forming masonry structures
- Understanding construction drawings and documents

**Progression Opportunities**
Progress on to further training at the college, an Apprenticeship or employment.
Level 2 Diploma in Painting & Decorating
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a painter and decorator.

Specialist Skills
- Preparation of surfaces and applying paint systems
- Using spray equipment to apply paint systems
- Specialist decorative finishes
- Understanding construction information, quantities, drawings
- Construction technology

Progression Opportunities
Progress on to further training with the college, an Apprenticeship or work.

City & Guilds Level 2 Diploma in Plumbing Studies
This one-year programme is a continuation from the Level 1 Electrical Installation & Plumbing, and develops your in-depth skills and knowledge to prepare for a Plumbing Apprenticeship or work.

Specialist Skills
- Cold and hot water systems
- Central heating systems
- Scientific principles for domestic, industrial and commercial plumbing
- Health and safety in building services

Progression Opportunities
Progress on to further training, an Apprenticeship or employment within the plumbing industry.

Level 3
120 Credit BTEC Level 3 Diploma in Construction and the Built Environment
This programme provides a variety of diverse and varied units, enabling students to gain a greater and well-informed understanding of the construction industry. This is a two year part-time course.

Specialist Skills
- Health, Safety & Welfare
- Sustainable Construction
- Mathematics in Construction
- Science & Materials in Construction
- Construction Technology & Design
- Project Management
- CAD
- Measuring, Tendering, Estimating
- Building Surveying
- Property Valuation
- Conversion and Adaptation

Progression Opportunities
This course provides the basis for progression on to Higher Education courses such as HND/HNC and Foundation Degree courses studied at CRC, and University Degree courses.

180 Credit Level 3 Extended Diploma in Construction
This programme provides a variety of diverse and varied units, enabling students to have a well-informed understanding of the professional and technical areas and routes to employment within the construction industry. This is a two year full-time course.

Specialist Skills
- The structure of the construction industry
- How buildings are designed, estimated and constructed
- How health and safety and site welfare affect the construction industry
- How sustainability in the construction Industry is embedded with building technology
- The use of Science and mathematics in construction
- The use of CADD and graphical detailing to create structural designs
- A variety of project management methods and techniques
- Building regulation, property valuation and the conversion of structures

Progression Opportunities
This course carries UCAS points which enables progression to University or Cambridge Regional College Higher Education Programmes. Level 4 Higher National Certificate, Foundation Degree (level 5), employment within the construction industry at trainee management level, including the higher apprenticeship framework (level 5) where further qualifications may be gained at level 5 whilst being employed.
LEVEL 4/5

ARU Foundation Degree in Construction Management
ARU Foundation Degree in Architectural Technology
240 Credit BTEC Level 3/4 Higher National Diploma Interior Design (on offer in Sept 2019, pending approval)

For further information on these Higher Education courses please see pages 146-147 or visit our website www.camre.ac.uk

APPRENTICESHIPS
Want to earn while you learn? An Apprenticeship could be for you.
We offer:
• Level 2: Built-Up Felt Roofing
• Level 2: Plastering
• Level 2/3: Bench Joinery
• Level 2/3: Brickwork
• Level 2: Property Maintenance Operative
• Level 3: Installation/Maintenance Electrician
• Level 2/3: Heating & Ventilation
• Level 2/3: Painting & Decorating
• Level 2/3: Plumbing
• Level 2/3: Site Carpentry

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 10-11

“I’ve been running my business for over five years now and slowly growing the business, building a great reputation throughout Cambridge. I trained as an electrician at Cambridge Regional College which offers a great range of construction training and amazing support and recognition of their students.”

Alistaire Ryan – Owner of CB1 Property Services
Former Construction student
Engineering is a hugely exciting field with many different study and career options. Our excellent engineering workshops and laboratories enable you to develop the right skills and knowledge to progress to employment or Higher Education. Our close relationship with the industry ensures that we are in step with the latest technological advances, giving you the very best training available.

We have invested heavily in our engineering facilities with state-of-the-art machinery, including 3D printers, robotics, manufacturing workshops, specialist welding and fabrication workshops, CADCAM, pneumatics and hydraulics as well as a materials testing laboratory. The college has been awarded EngTech status by the Institution of Mechanical Engineering.

Past students have gone on to leading universities such as Leeds, Sheffield, Loughborough and Cardiff, to study a wide range of subjects, including aerospace technology, product design, automotive and mechanical engineering. Students are also well equipped to go straight into the workplace or into an engineering Apprenticeship.

Level 2
- EAL Certificate/Diploma in Engineering Operations
- Intermediate Apprenticeships in Fabrication & Welding and Performing Manufacturing Operations

Level 3
- EAL Certificate/Diploma in Engineering & Technology
- BTEC Subsidiary Diploma/Diploma/Extended Diploma in Engineering

Level 4/5
- BTEC Level 4/5 HNC/HND Diploma in Mechanical Engineering
- BTEC Level 4/5 HNC/HND Diploma in Electrical & Electronic Engineering
- Higher Apprenticeships in Electrical Installation & Electronic Engineering

WHY CHOOSE CRC?
- Courses matched to industry standards to meet skills needs
- Great progression opportunities to university and work
- Strong links with employers
- Excellent Apprenticeship programmes
- Fantastic state-of-the-art engineering facilities

WHY CHOOSE ENGINEERING?
- Engineering is a hugely exciting field with many different study and career options.
- Our excellent engineering workshops and laboratories enable you to develop the right skills and knowledge to progress to employment or Higher Education. Our close relationship with the industry ensures that we are in step with the latest technological advances, giving you the very best training available.

CC LEVEL 2
EAL Level 2 Certificate/Diploma in Engineering Operations

This qualification will develop your practical skills and build related theory knowledge within engineering and is recognised as the initial training within all Engineering Apprenticeship frameworks. The course is broad in content and increases awareness of what potential engineers will face within the trade.

Specialist Skills
- Engineering health and safety
- Engineering techniques
- Engineering principles
- Producing mechanical engineering drawings using a CAD system
- Wiring and testing electrical equipment and circuits
- Assembling and testing electronic circuits
- General machining, fitting and assembly
- General welding applications

Progression Opportunities
Engineering Apprenticeship routes may be available or alternatively you can progress to our EAL Level 3 Diploma in Engineering & Technology.

LEVEL 3
EAL Level 3 Certificate/Diploma in Engineering & Technology

This one-year programme focuses on the use of technology in the production, maintenance and repair of all engineered items.

Specialist Skills
- Engineering and environmental health and safety
- Engineering organisational efficiency and improvement
- Computer Aided Design (CAD) techniques
- Digital electronics
- Computer Numerical Control (CNC)
- Programming/machining
- Programmable logic controllers
- Welding practices
- Advance turning
- Advanced milling

Progression Opportunities
This course may lead to an Advanced Apprenticeship. You will normally continue to employment as a skilled engineer or look to take further academic studies to prepare you for university.
ENGINEERING

APPRENTICESHIPS
Want to earn while you learn? An Apprenticeship could be for you.

We offer:
• Level 2: Performing Manufacturing Operations
• Level 2: Fabrication & Welding
• Level 3: Machinist – Advanced Manufacturing
• Level 3: Maintenance Operations Technician
• Level 3: Product Design & Development Technician
• Level 3: Technical Support Technician
• Level 3: Toolmaker, Tool & Die Maintenance Technician
• Level 3/4: Electrical & Electronic Engineering

Apprenticeships can start at various dates across the year. “The Navy really likes people who have trained in a trade, so studying engineering at CRC was a big advantage. I enjoyed my time at CRC and the course definitely helped me get the job in the Navy.”

Will Thoday – Royal Navy Submariner
Former Engineering student
Hairdressing is a popular career which has many great prospects. You can work in a salon, at home, abroad or even in the film and TV industry. You may even decide to open your own salon, and we can help you achieve this through one of our management pathways. Students also go on to Apprenticeships or into work in leading salons.

All our courses are delivered in our beautiful training salons and students compete in industry skills competitions to a very high standard. We also have a luxurious commercial hair salon, where you will be able to gain valuable work experience working with paying clients.

Once qualified, many hairdressers continue to develop their skills in the many specialist areas we offer.

**Entry**
- City & Guilds Introduction to Hairdressing & Beauty Therapy

**Level 1**
- City & Guilds Level 1 Diploma in Hairdressing

**Level 2**
- City & Guilds Level 2 Technical Certificate in Cutting & Styling
- City & Guilds Level 2 Technical Certificate in Hair Colouring
- Intermediate Apprenticeships in Barbering & Hairdressing

**Level 3**
- City & Guilds Level 3 Diploma in Hairdressing
- Advanced Apprenticeship in Hairdressing

**WHY CHOOSE CRC?**
- Superbly-equipped training salons and teaching rooms
- Fantastic commercial work experience in our state-of-the-art hair salons
- Opportunity to represent the college in national competitions
- Highly qualified teaching staff

ENTRY LEVEL

City & Guilds Introduction to Hairdressing & Beauty Therapy

This one-year combined course will give a taste of hairdressing, beauty therapy and media make-up skills. This is particularly suitable for students with learning support needs who wish to prepare for further qualifications and employment.

Specialist Skills
- Customer care
- Skin care
- Shampooing and conditioning
- Creating a hair and beauty image

Progression Opportunities
Progress to Level 1 in either Hair or Beauty or work in the industry as an assistant.

LEVEL 1

City & Guilds Level 1 Diploma in Hairdressing

This one-year course will provide you with a real insight into the hairdressing industry.

Specialist Skills
- Creating and maintaining retail displays
- Shampooing and conditioning hair
- Presenting a professional image
- Styling women’s and men’s hair
- Salon reception duties
- Colouring hair
- Working with others
- The art of dressing hair

Progression Opportunities
Progress to a Level 2 course, an Apprenticeship or work in the hairdressing industry as an assistant.
HAIRDRESSING

Want to earn while you learn? An Apprenticeship could be for you.

We offer:
• Level 2: Barbing
• Level 2/3: Hairdressing

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 10-11 or www.camre.ac.uk/apprenticeships

Progression Opportunities
Progress to a Level 3 Advanced Diploma in Hairdressing or an Apprenticeship or work in the hairdressing industry, such as a large salon, a spa, on a cruise liner or even set up your own mobile business.

Specialist Skills
• Principles and practices of hairdressing
• Working as part of a team
• Health and safety
• Shampooing and conditioning
• Effective use of resources
• Colouring
• Blow drying and cutting
• Setting and dressing hair
• Perming/neutralising

Progression Opportunities
Progress to the Level 2 Technical Certificate in Hairdressing or Level 2 Diploma in Hairdressing, start an Advanced Apprenticeship or work in the hairdressing industry, such as a large salon, a spa, on a cruise liner or even set up your own mobile business.

Specialist Skills
• Principles and practices of hairdressing
• Style and finish
• Colour and lighten hair
• Perming/neutralising

Progression Opportunities
After completing this programme you will be a highly skilled professional hairdresser able to work confidently in any aspect or area of the business. You can also continue your training through a Level 4 Barbering or Salon Management qualification.

“I started my hairdressing career as an apprentice at CRC. It’s a good combination of practical experience in the workplace and training at college, which you get paid for!”

Leah Moore – Owner of The Moore Hair Company
Former Apprentice at CRC

GREAT CAREERS START HERE

HAIR & BEAUTY APPRENTICE OF THE YEAR
HALEEMA ASHIQ

Level 2 Technical Certificate in Hairdressing

This one year programme can be taken once Level 2 Cutting & Styling is completed.

Specialist Skills
• Principles and practices of hairdressing
• Style and finish
• Colour and lighten hair
• Perming/neutralising

City & Guilds Level 2 Technical Certificate in Cutting & Styling

This one year programme develops practical and theoretical skills in cutting and styling hair.

Specialist Skills
• Principles and practices of hairdressing
• Working as part of a team
• Health and safety
• Shampooing and conditioning
• Effective use of resources
• Colouring
• Blow drying and cutting
• Setting and dressing hair
• Perming/neutralising

City & Guilds Level 3 Advanced Technical Diploma in Hairdressing

This one year programme will develop your skills to become an outstanding hairdresser in your chosen area.

Specialist Skills
• Creative cutting
• Creative colouring
• Colour correction
• Hair extension services
• Creative styling
• Consultation services
• Advanced cutting

City & Guilds Level 3 Advanced Technical Diploma in Hairdressing

This one year programme will develop your skills to become an outstanding hairdresser in your chosen area.
Our specialist media facilities provide a professional environment in which to study for a great range of careers. You can become a journalist, a web designer, a radio broadcaster, a filmmaker or a games developer - just some of the many exciting career options on offer.

Our students are continually producing creative work - they write and publish their own award-winning student magazine, make their own films and computer games as well as running their own radio station.

We have strong links with different media sectors, enabling us to offer a fantastic work-related experience within the industry. Our media programmes provide the knowledge, challenge and hands-on training needed to prepare you for employment or further study.

Past students have gone on to universities across the country – including De Montfort, Bournemouth, Stafford, Teeside, Coventry, Manchester Met, Brighton and Norwich University of the Arts - to study marketing, games technology, journalism, cinematography, digital film, visual art, animation and broadcasting. Students are also well equipped to go straight into the workplace.

The image contains a section on what the program offers, including levels and why choose CRC. It also mentions earning up to £35k as a TV or Sound Technician and up to £70k as a Computer Games Designer/Developer. There is a mention of past students going on to universities and earning potential.

A website URL, www.camre.ac.uk, is provided for further information and application. There is also a phone number, 01223 226315, to apply. The page number is 84, and the next page number is 85.
ENTRY & LEVEL 1
UAL Certificate in Creative Media

The core of this study programme consists of English, maths and IT areas and the development of your study skills and your confidence. You will experience a ‘taster’ of media related subject areas as well as build your employability skills and complete 30 hours of work experience.

Specialist Skills
- Extensive research skills
- Digital video production
- Games development
- Digital photography
- Audio and print production
- Develop appropriate outcomes for a variety of media audiences

Progression Opportunities
Progress to a Level 2 course e.g. Level 2 UAL Diploma in Creative Media Production.

LEVEL 2
Level 2 UAL Diploma in Creative Media Production

This challenging one-year programme provides the knowledge and skills to plan and produce media work across a range of disciplines (video, print, games, digital publication, photography and audio).

Specialist Skills
- Digital video/audio production & editing
- Print production techniques
- Image manipulation
- Photography practice
- Games design and interactive design
- Pre-production planning
- Project management
- Research skills

Progression Opportunities
Progress to a Level 3 Media course such as Level 3 UAL Diploma in Creative Media Production.
Level 3 UAL Diploma (Yr 1) / Extended Diploma (Yr 2) in Creative Media Production

This programme provides an in-depth introduction to all the creative, theoretical and technical skills of moving image production. It is not only about making films but understanding how the wider film industry works and how it relates to other areas, e.g. animation, music, games, arts, sports, journalism and documentary. Industry links, work experience and live briefs are a key aspect as is working for our film and TV production company, Arclight.

Specialist Skills
- Scriptwriting
- Pre-production planning
- Video editing
- Film and television studies
- Setting up and operating a TV studio
- Broadcasting and publication presentation skills
- Music video and promo production
- Factual film, single camera drama and documentary production
- Research techniques
- Legal and ethical considerations and regulations
- Stop frame animation

Progression Opportunities
Excellent progression opportunities to university for BA/BSc(Hons)/FdA or HNC/HND or straight into employment.

“I studied at CRC for its wide range of unique courses. The teaching staff were amazing and the opportunities that you are given can’t be found elsewhere. It has helped me release my own games on the market and develop my specialist skills further. Being part of such a unique course and such a great college has helped me pursue my career in teaching - and CRC was the place to do it.”

Michael Killick – Games Development Lecturer at CRC
Former Games Development student

Level 3 UAL Diploma (Yr 1) / Extended Diploma (Yr 2) in Creative Media Production (Games Development)

This qualification is not just about making games but about making your first steps into the games industry. You’ll undertake design challenges, learn about art, sound, programming, design, marketing and networking in order to form yourself fully as a games developer. You’ll connect with the industry through a range of industry visits, live briefs and trips to museums, galleries, expos and more. You will contribute to the design, production and release of original games through our own games company, Rizing Games.

Specialist Skills
- Games Design
- Game Theory
- Digital Graphics
- Audio Design
- Programming
- Unity Engine
- Project Management
- Industry Networking

Progression Opportunities
Excellent progression opportunities to University for BA/BSc(Hons)/FdA or HNC/HND.
Cambridge Regional College is one of only a few colleges in the country to offer full-time courses in Media Make-up. Studying Media Make-up opens up a whole range of exciting careers, from working for prestigious make-up companies to employment in the film and television industry as a special effects make-up expert.

Our students have access to state-of-the-art studios and work closely with other students in areas such as hairdressing, media and fashion. Students regularly compete and win in regional and national competitions - including taking first place in the Royal Opera House Design Challenge - putting them at the very top of their field.

**Level 2**
- City & Guilds Level 2 Technical Certificate in Hair and Make-up Artistry

**Level 3**
- Technical Diploma in Hair and Media Make-up Artistry
- Advanced Technical Diploma in Theatrical, Special Effects & Media Make-up Artistry

**WHY CHOOSE CRC?**
- Students compete in - and win - regional and national competitions
- Training by industry experts
- Outstanding levels of work
- Great career opportunities in film and TV
- Superb training facilities

**WHY CHOOSE MEDIA MAKE-UP?**

**WHAT WE OFFER AT CRC**

**EARN UP TO £40k AS AN IMAGE CONSULTANT**

**EARN UP TO £50k AS A MAKE-UP ARTIST**
CC LEVEL 2
City & Guilds Technical Certificate in Hair and Make-up Artistry

This one-year programme develops practical and theoretical skills in all aspects of hairdressing and media make-up artistry.

Specialist Skills
• Principles of working in the media make-up industry
• Anatomy and physiology for make-up artists
• Research, planning and showcasing designs
• The art of applying make-up
• Hair artistry
• Creative make-up artistry

Progression Opportunities
At the end of the course you will be a media make-up artist who will confidently be able to work in industry doing make-up for photographic work, fashion shows or freelancing to build your skills and experience. You can also progress to one of our Level 3 courses or an Apprenticeship.

CC LEVEL 3
Technical Diploma in Hair and Media Make-up Artistry

This exciting new qualification provides you with the specialist practical skills and knowledge which will equip you to seek employment or progression within the media make-up industry.

Specialist Skills
• Work in the film and television industry
• Create historical hair and make-up looks
• Creative hair design
• Fashion and photographic make-up
• Look book and industry portfolio
• Applying body art
• Camouflage make-up

Progression Opportunities
The programme opens up career opportunities as a hair and make-up artist in the fashion world, television or other media areas, usually working freelance. There are also opportunities available for progression onto Higher Education and further study at HND or degree level depending on prior experience and qualifications.
Advanced Technical Diploma in Theatrical, Special Effects & Media Make-up Artistry

The Level 3 Advanced Technical Diploma in Theatrical, Special Effects and Media Make-up Artistry provides you with specialist practical skills and knowledge which will equip you to seek employment or progression within the theatrical and media make-up industry.

Specialist Skills
- Cutting and styling techniques for performers
- Creative make-up design for productions and industry demands
- Apply prosthetic pieces and bald caps
- Special effects make-up
- Body art for competition
- Avant-garde hair and make-up

Progression Opportunities
The programme opens up career opportunities as a hair and make-up artist in the fashion world, television or other media areas, usually working freelance. There are also opportunities available for progression onto Higher Education and further study at HND or degree level depending on prior experience and qualifications.

“I have a passion for make-up, always have. I would like to work as a SFX make-up artist working on film sets. This course really helps as I learn how to deal with clients on a professional level, as well as learning about different make-up skills and styles, professional tools and techniques and the make-up of various cultures.”

Grace Fox
Level 2 Media Make-Up
Our superbly-equipped motor vehicle workshops are a great place to learn, with specialist diagnostic units and purpose-built workshops. Tutors are experienced in the industry, and you’ll be taught on the latest equipment in a work setting - giving you the skills employers want.

The college runs its own commercial garage, so you will be able to work on customers’ vehicles, under the guidance of lecturers, and learn real hands-on, customer-focused skills. We have excellent relationships with local employers and work closely with them on Apprenticeships and work experience. It’s a great start to your career!

Past students have chosen to continue their studies in automotive technology and automotive engineering at universities including Birmingham City and Manchester Met. Students have also progressed on to Apprenticeships with leading car manufacturer SEAT and the East of England Ambulance Service.

WHY CHOOSE CRC?

- Courses matched closely to industry needs
- Great progression opportunities to employment and Higher Education
- Superb motor vehicle workshop facilities of franchise garage standard
- Excellent Apprenticeship programmes and progression opportunities
- Unique motorsports course at our Huntingdon campus

WHAT WE OFFER AT CRC

Level 1
- Introductory Diploma for the Motor Industry

Level 2
- Level 2 Diploma in Motor Vehicle Maintenance & Repair
- Intermediate Apprenticeships in Vehicle Maintenance & Repair

Level 3
- Level 3 Diploma in Vehicle Maintenance (Light Vehicle)
- BTEC Diploma/Extended Diploma in Vehicle Technology
- BTEC Level 3 Diploma in Vehicle Technology (Motorsports)
- Advanced Apprenticeships in Vehicle Maintenance & Repair

WHY CHOOSE MOTOR VEHICLE?

Do you have passion or interest in cars? Fancy learning how to repair and maintain them? This course is a great starting point to introduce the skills and knowledge you’ll need to work in the automotive repair industry. Our experienced tutors will help you to become familiar with vehicle engines, wheels and tyres, braking systems, transmission and other key elements to ensure you can take the next step into a career in the motor industry.

**Specialist Skills**
- Petrol and diesel engines
- Transmissions systems
- Health and safety
- Auto electrics
- Wheels and tyres
- Steering, suspension and braking systems
- Employability skills
- Functional skills or GCSE in English and maths depending on previous qualifications.

**Progression Opportunities**
Progression to the Level 2 full-time course or a Level 2 Apprenticeship. This course will also give you an excellent range of knowledge which may help you with full-time employment opportunities within the motor industry from service reception to vehicle parts and sales.

---

**LEVEL 2**

**Level 2 Diploma in Motor Vehicle Maintenance & Repair**

This one-year programme is ideal if you want to gain a ‘hands on’ job in the motor vehicle industry. You will develop your knowledge of vehicle systems and repair procedures gained in your Level 1 qualification.

**Specialist Skills**
- Removing and replacing light vehicle chassis units and components
- Vehicle fuel, ignition, air and exhaust system units and components
- Vehicle inspection and maintenance
- Removing and replacing vehicle engine units and components
- Health and safety
- Materials, fabrication, tools and measuring devices
- Vehicle engine mechanical, lubrication and cooling system units and components
- Vehicle transmission and driveline units and components.

---

**CAREER MAP:**

**MOTOR VEHICLE COURSES**

LEVEL 1

**Introductory Diploma for the Motor Industry**

LEVEL 2

**Level 2 Diploma in Motor Vehicle Maintenance & Repair**
Level 3 Diploma in Vehicle Maintenance (Light Vehicle)

This one-year programme enables you to diagnose problems in a range of vehicle systems, covering engine, transmission, electrical and chassis systems.

Specialist Skills
- Advanced chassis technology
- Advanced engine technology
- Advanced transmission technology
- Level 1 Welding Award
- Advanced electrical and electronic technology
- Vehicle maintenance, service & complex diagnosis

Progression Opportunities
This course is the Technical Certificate for an Advanced Apprenticeship. Progress to employment in the automotive industry in order to gain a full Apprenticeship.

BTEC Diploma/Extended Diploma in Vehicle Technology

This qualification provides an introduction to the broad range of analytical skills required by a motor vehicle technician. You will learn about the function and operation of the major components of a light motor vehicle.

Specialist Skills
- Analytical skills through mathematics and science
- Vehicle engine principles, operations, service and repair
- Light vehicle steering, suspension and braking systems
- Operation and maintenance of light vehicle transmission systems
- Applications of vehicle science and maths
- Engine electrical charging and starting and electronic principles
- Operation of vehicle chassis systems

Progression Opportunities
Progress to the BTEC Extended Diploma and from there to Higher Education or employment.

BTEC Level 3 Diploma in Vehicle Technology (Motorsports)

This exciting two-year programme is designed for students who wish to pursue a career in motorsports/competition preparation or high performance road cars and can provide a pathway into Higher Education. You will have the opportunity to attend and work at a number of motorsport events with the college race team which has a race and championship winning pedigree. This will provide a fantastic, and unique experience and a skill set which will put you in pole position when moving into employment or continuing your education.

Specialist Skills
- Operation of vehicle chassis systems
- Vehicle engine principles, operation, service and repair
- Vehicle system fault diagnosis and rectification
- Motorsport workshop practices
- Motorsport vehicle preparation and inspection
- Professional practice and logistics for motorsports

Progression Opportunities
This course will allow you to develop a wide-ranging knowledge and understanding of the skills required for progression into a broad range of roles within the motorsport industry. Past students have gone on to employment at companies such as Vindis Group, Marussia Formula One team and Caxton Karting or gone onto Higher Education or Apprenticeship programmes.
A career within the music industries requires talent and professionalism but most importantly passion! If composing, creating, recording and mixing music is your passion, then read on.

Our music department has fantastic facilities including extensive recording studios, Mac suites, fully equipped rehearsal rooms with kit and backline, industry-standard live sound rig, DJ decks (vinyl and CD) and an array of music tech equipment for both live and studio applications.

Our professional tutors have excellent links with the music industry allowing you to develop your skills to high standards, play gigs, attend workshops with guest professionals and visit external venues.

When you have created your music we help you with releasing, marketing and distributing your music through our own record label, Morph Recordings.

Past students have gone on to universities such as Sheffield Hallam, Westminster and Hull to study a wide range of subjects, including music technology, music journalism, creative musicianship, audio, music and TV production.

Morph Recordings is an exciting and vibrant label that offers music technology students insight into running a recording label and all the trials, tribulations and exhilaration that comes as part of that process.

It is a fantastic way of drawing upon the promotional, organisational, production and performance talent of music students, and enabling them to work with students across the college.

The music technology students have collaborated directly with Rising Games, where tech students produced all the music and sound design for their newly developed projects - shown in LA at the E3 games expo.

We have had many releases, a strong web-presence, Radio 1Xtra airplay and further airplay internationally. Our artist roster represents not only the talent here at the college, but also the local area and internationally too.

WHY CHOOSE MUSIC?

WHAT WE OFFER AT CRC

| Level 2 | UAL Diploma in Music Performance & Production |
| Level 3 | UAL Diploma/Extended Diploma in Music Performance & Production |

WHY CHOOSE CRC?

- Opportunities to release music on our label Morph Recordings
- All staff are practising music industry specialists
- Outstanding performance and production facilities
- Workshops with established, experienced industry professionals
- Perform solo and collaboratively in college and externally
- Opportunities to compose and design sound for games, film and TV

Morph Recordings is an exciting and vibrant label that offers music technology students insight into running a recording label and all the trials, tribulations and exhilaration that comes as part of that process.
LEVEL 2
UAL Diploma in Music Performance & Production

Delivered by working musicians and producers, and supported by our own record label, Morph Recordings, this challenging one-year course focuses on introducing the relevant skills, knowledge and experience necessary to succeed as a producer and/or performer in the music industry today.

We have outstanding performance and production facilities and offer great opportunities to release music on our record label, Morph Recordings. Working with our industry specialist teaching staff you will reach professional standards of performance and musicianship, studio recording and production and live sound engineering.

Specialist Skills
Working both independently and collaboratively with your peers, you will develop the appropriate fundamental knowledge and techniques required to:
- Run studio recording sessions and to mix these to a professional standard.
- Rehearse, write and perform collaboratively at gigs in college and externally
- Learn to write songs in a range of styles
- Compose, arrange and mix with Logic Pro X
- Understand the contemporary music industry and the job opportunities available
- Market and promote releases and live events

Progression Opportunities
Excellent progression opportunities to the Level 3 UAL Extended Diploma in Music Performance and Production Apprenticeships within the wider commercial/creative based industries or employment. Most performers are self-employed by nature and success is reliant on individual performance skills.
**LEVEL 3**

**UAL Diploma/Extended Diploma in Music Performance & Production**

This is a two year course consisting of two one-year programmes. Delivered by working musicians, producers, and supported by our own record label, Morph Recordings, this challenging course focuses on building the relevant skills, knowledge and experience necessary to succeed as a producer and/or performer in the music industry today. You will be able to develop the specialist skills integral to your chosen pathway – either Production or Performance.

**Music Performance Specialist Skills:**
- Compose for a range of applications, genres and industry briefs
- Learn the musical characteristics of a range of genres from rock to jazz
- Learn to write songs in a range of styles
- Perform in a range of locations and contexts
- Understand and apply music theory in compositions and arrangements and use Sibelius software
- Learn to use a range of technology (including Logic ProX) in composition and performance
- Devise and execute marketing campaigns for large scale performance projects
- Develop approaches to contrasting performance situations – i.e. studio and live

**Progression Opportunities**

Progression to Higher Education for BA/BSc (Hons)/FdA/HNC or HND, or straight into employment or an Apprenticeship to develop your skills and experiences within the wider commercial/creative industries.

**Music Production Specialist Skills:**
- Develop studio production techniques for commercial releases on Morph Recordings
- Understand the different forms of synthesis and advanced sampling and audio manipulation techniques used in sound creation
- Compose and create sound design for commercial game releases, film, social media and TV/radio broadcast
- Devise and execute marketing campaigns for large scale production projects
- DJ performance techniques – using both digital, analogue and hybrid technologies
- Utilise technologies in performance – in conjunction with other art forms

“The music course is brilliant! It focuses on many different areas within the music world, it has helped me to develop and expand my knowledge so that I can perform with confidence and reach my full potential. The atmosphere at CRC is very supportive and friendly, I have not felt pressured, just free to be myself! CRC was my first choice and is the ideal environment for me to study and work to achieve the grades I need. I strongly recommend CRC above other local colleges.”

Lana Bruce
Level 3 Music Performance student
Our Performing Arts courses give you the practical skills and knowledge to succeed in this exciting and vibrant industry. The college has industry standard equipment and facilities which include a working public performance studio equipped with full lighting and sound equipment and singing and rehearsal studios.

All programmes are delivered by experienced academic and industry-trained staff. You will work closely with a wide range of guest lecturers and speakers from the acting, dance and musical theatre professions.

All of our Performing Arts students benefit from numerous public showcases and performances, workshops and live briefs. You will learn not just performance but about the wider industry e.g. business, finance, marketing and backstage.

**Why Choose CRC?**

- Superb performance facilities, including college theatre
- Opportunities to perform to the public to showcase productions
- Enjoy great masterclasses from top artists
- Excellent progression to Higher Education or performance specialist schools

**Level 2**

- UAL Level 2 Award & Diploma in Performing & Production Arts

**Level 3**

- UAL Diploma/Extended Diploma in Performing & Production Arts (Acting)

---

**EARN UP TO**

- £20k AS A PERFORMING ARTS TECHNICIAN
- £38k AS AN ACTIVITY PRESENTER

---

Apply now! Call us on 01223 226315

www.camre.ac.uk
**LEVEL 2**

**UAL Level 2 Award & Diploma in Performing & Production Arts**

This qualification provides a full-time introduction to performance, production and design for the Performing Arts that gives you a broad diagnostic experience that develops an understanding of performing arts as a collaborative and vocational activity.

**Specialist Skills**

- Employability skills
- Planning, organising and staging a production
- Leadership
- Self-reliance
- Group management
- Communication
- Adaptability
- Imagination and creativity

**Progression Opportunities**

The qualification aims to enable you to re-engage with education and acquire the requisite skills, knowledge and understanding to progress to further education. You can progress to the Level 3 Performance & Production Arts.

**LEVEL 3**

**UAL Diploma/Extended Diploma in Performing & Production Arts (Acting)**

This course is a combination of two one-year programmes, in which you will study a broad range of skills and techniques. After which you will then choose an area in which to specialise for the second year.

It provides a practical and theoretical introduction to the traditions and skills of acting and allows you to build up your skills through a range of experiences in combat theatre, stage craft and professional practice. You will go on to specialise and further explore contemporary and classic theatre styles. This course will involve frequent in-house performance opportunities.

**Specialist Skills**

- Good discipline in rehearsal practice and performance work
- Presentation of performance work
- Design and perform in a showcase
- Understanding your role and responsibility in a group performance
- Explore individual repertoire
- Devising own plays and collaborative work with industry professionals
PERFORMING ARTS

• Marketing and self promotion
• Specialist extended project: planning, production and performance

Progression Opportunities
This two-year programme provides you with the knowledge and skills to access and progress to higher education, degree level study or employment in the performing arts.

“All of our teachers are industry professionals and so they know first-hand what it’s like to be working in the industry and can give us those tips. I’ve just got a scholarship for Bodywork in Cambridge.”

Daniel Ferguson
Level 3 performing arts
At CRC, we offer full-time, Apprenticeships and day release courses in Science as well as our more advanced courses for people aged 19 or over, including our popular Access to Science programme and HNC/HND in Biological Sciences for Industry.

The focus of our science programmes at CRC is to equip individuals with the knowledge and skills needed to work in science-based industries or to enable progression to an undergraduate degree or further professional qualifications in science-related areas.

Past students have gone on to universities including Anglia Ruskin, Bath, Warwick, Nottingham, Lancaster, UEA, Southampton and Glasgow to study a wide range of subjects, from biochemistry and environmental science, to nursing and archaeology. Apprenticeships in the health and bioscience industries are a popular career option and students also go straight into work in industries in the sectors.

**WHY CHOOSE CRC?**

- Award-winning staff
- Excellent progression to employment, Apprenticeships and Higher Education
- Strong links with industry employers
- High quality work experience opportunities
- Stand-alone project work

**WHAT WE OFFER AT CRC**

**Level 3**
- BTEC Foundation/Extended Diploma in Applied Science
- BTEC Foundation/Extended Diploma in Forensic and Criminal Investigation
- Advanced Apprenticeship for Laboratory & Science Technicians
- Access to HE Diploma (Science)

**Level 4/5**
- BTEC HNC/HND Diploma in Biological Sciences for Industry
- Higher Level Apprenticeship for Laboratory Technician

**WHY CHOOSE SCIENCE?**

EARN UP TO £30k AS A LAB TECHNICIAN

EARN UP TO £41k AS A PHYSIOTHERAPIST

CRC IS ENTHUSE STEM FE COLLEGE OF THE YEAR 2017

www.camre.ac.uk

Apply now! Call us on 01223 226315
CC LEVEL 3
BTEC Foundation /Extended Diploma in Applied Science

This academic course gives you the chance of studying a wide range of units. Mandatory units (with external assessments/exams) include Principles & Applications of Science, Science Investigation Skills and an Investigative Project. Optional units might include Applications of Organic & Inorganic Chemistry, Microbiology & Microbiological Techniques and Genetics & Genetic Engineering. You should have a strong interest in science, be committed to the level of work required and have good time management skills. If you prefer, and are currently employed in the science industry, you can study for a National Diploma in Science over 2 years on a part-time basis.

Progression Opportunities
On successful completion you may progress to a wide range of Higher Education courses at university or the HNC Diploma for Biological Sciences at the college.

BTEC Foundation/Extended Diploma in Forensic and Criminal Investigation*

This academic course gives you the chance of studying a mixture of Biology, Chemistry and Maths but also bringing in elements of forensic science. This course will enable you to develop practical science skills but also the ability to plan, research, problem solve and communicate findings.

You will study a mixture of exams, examined tasks and coursework. Mandatory units include Principles & Applications of Science, Science Investigation Skills, Applications of Criminology and Applications of Criminal and Forensic Psychology. Optional units might include Microbiology & Microbiological Techniques, Practical Chemical Analysis, Forensic Photography and Physiology of Human Body Systems.

You should have a strong interest in applied science in particular practical skills in chemistry and forensics, be committed to the level of work required and have good time management skills. Some of your classes will be taken with the Applied Science students as there are shared units.

*Subject to relevant approvals
APPRENTICESHIPS
Want to earn while you learn?
An Apprenticeship could be for you.
We offer:
- Level 3/4: Laboratory Technician
Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 10-11 or www.camre.ac.uk/apprenticeships

Progression Opportunities
On successful completion you may progress to a wide range of degree courses at university such as Forensic Science and many biology and chemistry related courses. You could also progress onto the BTEC Level 4/Level 5 HNC/HND Diploma in Policing Studies offered at CRC.

Advanced Apprenticeship for Laboratory & Science Technicians
An Apprenticeship for Laboratory and Science Technicians will give you the skills and experience needed to work in an education, industrial, medicinal or research laboratory. Laboratory technicians support scientists and help carry out tests, research and investigations. During the Advanced Apprenticeship, you’ll be able to specialise in a field of your interest. Whether you start on a Level 3 Apprenticeship is determined by your role in the workplace and any previous qualifications. For more information about Apprenticeships, please turn to pages 10-11.

Progression Opportunities
On successful completion you may progress onto our Higher Level Apprenticeship/Higher National Certificate in Biological Sciences for Industry.

LEVEL 4
BTEC Level 4 HNC Diploma in Biological Sciences for Industry
This two-year programme will equip you with the knowledge and skills needed to work in biologically-based industries or enable progression to an undergraduate degree or further professional qualifications in biology or related areas. Applicants will need to be employed in the science industry or willing to find work placements. For further information on this Higher Education course, please see pages 146-147 or visit our website www.camre.ac.uk

Access to Science
Study any three from Biology, Physics, Chemistry and Mathematics. This will allow progression onto a wide variety of interesting degree courses such as environmental, forensic and sports science, biomedical science, physiotherapy, dietetics/nutrition, physics and physical chemistry. GCSE Maths and English at grade C (4) or above are normally required for these degree courses so research into progression before application is important.

“IT was absolutely fantastic to win CRC’s Apprentice of the Year award. The Apprenticeship has really stretched me, given me the confidence to go on in another scientific job role. I really enjoyed learning, particularly research skills. Doing assessments gives a better indication of ability - each completed assignment gave me a sense of achievement, and I could feel the improvement.”

Becky French – Lab Technician
CRC Apprentice of the Year 2017
Our Sport Studies courses are some of the most popular in the college. Our students benefit from superb sports facilities and can train as Sports Leaders alongside their main course. We also have a very successful Shadow Scholars Academy and a Futsal Academy, both run in partnership with Cambridge United.

The sport and leisure industry is one of the largest employers in the world and offers a wide range of career opportunities. There are also many careers within the sports industry which don’t actually involve playing, such as public relations, marketing, coaching and teaching.

Past students have gone on to universities across the country – including UEA, Canterbury, Oxford Brookes and Leeds Met – to study sport psychology, sport rehabilitation and sports science. Students also go straight into work, with career choices including gym manager, sports development officer and sports leader. Many students go on to Higher Education courses at CRC - see pages 146-147.

**WHAT WE OFFER AT CRC**

**Level 1**
- BTEC Level 1 Diploma in Sport & Active Leisure

**Level 2**
- BTEC Level 2 Certificate in Sport Studies

**Level 3**
- BTEC 90 Credit/Diploma/Extended Diploma in Sport Studies (Coaching, Development & Fitness)
- BTEC Level 4 HNC Diploma in Sport (Coaching & Development)
- BTEC Level 5 HND Diploma in Sport (Coaching & Development)

**WHY CHOOSE CRC?**

- Extra leadership and fitness qualifications to boost your job opportunities
- Volunteering in local schools and clubs provides valuable work experience
- Close links with Cambridge United football club and Futsal Academy
- Great career options include sports science, coaching and personal training
- Exciting activities and trips including outdoor pursuits and sports tournaments

Apply now! Call us on 01223 226315

www.camre.ac.uk
**SUPPORTED LEARNING COURSES**

**PRE-ENTRY**
**DURATION: 2 YEARS**

**Gateway to Improving Choice**

The Gateway/IC pathway is for young people aged 16 – 24 who have a variety of complex needs. They may have ASD, high sensory needs and limited communication skills. This pathway is uniquely built around the learner, their needs and their plans for the future.

**ENTRY LEVEL 1-2**
**DURATION: 2 YEARS**

**Aspire**

Aspire is a pathway for students that need to build their skills to move on to the pathways that have more accredited learning within them. Aspire can be a finishing course for Learning for Life students or a starting course for those that want to move on through the Entry 2 and Entry 3 pathways but may require more confidence or ability in basic skills, such as communication.

**ENTRY LEVEL 1-2**
**DURATION: 2 YEARS**

**Learning for Life**

Learning for Life is for young people aged 16 – 24 who have severe learning difficulties. This pathway concentrates on developing communication skills, community participation, building basic skills and skills for life, so that each person is able to make progress in their independence and ability to speak up about their own choices.

**ENTRY LEVEL 1-2**
**DURATION: 2 YEARS**

**Preparation for Independence**

Preparation for Independence pathway is a good starting point for students who have moderate learning difficulties or for those students who have successfully completed our Aspire pathway.
**ENTRY LEVEL 3**
**DURATION: 2 YEARS**

Archway

Archway is an Entry 3 pathway suitable for students with moderate or specific learning difficulties, who need time to develop their confidence, social skills and ability to study with greater independence. A mixture of business, employability, enterprise and life skills this course is an excellent starting point for students who are joining from mainstream or special schools and have already gained Entry 2 qualifications.

**ENTRY LEVEL 3 – LEVEL 1**
**DURATION: 1-2 YEARS**

Vocational Pathways

In Supported Learning we have 5 Vocational Pathways. All are 3 days per week with work experience organised on a non-college day. The vocational pathways are all 1 or 2 years in length, (3 years catering only) with a view that they lead on to employment or supported internship.

- Catering and Hospitality (based at St John’s College Cambridge)
- Horticulture
- Land-based studies (Based at Milton Country Park)
- Retail
- Small Animal Care
- Creative Industries (subject to course approval, at Huntingdon Campus only)

**SUPPORTED INTERNSHIP**

Supported Interns

Supported Interns have two days placed with a suitable employer where they are taught carefully and systematically to do the job to a high standard. Students are fully supported at the start and are gradually offered less support so they become more independent. Travel training is also part of the offer.

**LEVEL 1**

Options

Options is a level 1 employability course for young people who need extra time to decide what route they wish to take. It is a supportive group where young people can have time to develop their social confidence and employability skills. Part of the Options course includes vocational tasters that will aid the young person in choosing their career path.
Travel & Tourism is one of the UK’s fastest-growing industries. Opportunities exist both in the UK and abroad in tour operation, tour management and in the airline industry.

Our courses provide great work experience opportunities with leading travel organisations, from airports to hotels, and exciting visits to external businesses, giving you the skills and knowledge to progress to careers with international companies.

Past students have gone on to universities including ARU and Hertfordshire University, specialising in subjects such as events management and tourism, commercial pilot training and tourism management. Students also choose to go straight into work – for instance in busy city tourist offices – or an Apprenticeship.

**WHY CHOOSE TRAVEL & TOURISM?**

**Level 1**
- Diploma in Travel & Tourism

**Level 2**
- BTEC Certificate in Travel & Tourism

**Level 3**
- BTEC 90 Credit/Diploma/Extended Diploma in Travel & Tourism

**WHY CHOOSE CRC?**

- Great job opportunities through annual employers’ fair
- Residential and day trips including cultural visits and experiences
- Lecturers with up-to-date industry experience
- Exciting placements with top hotels, airlines and international airports
- Excellent connections with travel companies

**WHAT WE OFFER AT CRC**

- EARN UP TO £30k AS A TOUR GUIDE
- EARN UP TO £40k AS A TRAVEL AGENT

---

**LEVEL 2**

BTEC Certificate in Travel & Tourism

This one-year course allows you to explore the UK travel and tourism industry and learn more about UK and European holiday destinations. You will learn how to collect, analyse and interpret data and explore customer service and business environments in travel and tourism. Trips and residential activities form a large part of your study programme.

**Specialist Skills**
- Learning about tourist destinations
- Exploring customer service

**Progression Opportunities**
Progress to employment in the travel industry or to the Level 3 Diploma in Travel & Tourism.
LEVEL 3
BTEC 90 Credit/Diploma/Extended Diploma in Travel & Tourism

This two-year course investigates the growing travel and tourism industry in more detail and will allow you to further explore the European travel market, UK destinations and long haul travel. You will learn about key specialist areas of the industry, including air fares and ticketing, the business of travel, hospitality operations and long haul travel. Trips and residential activities form a large part of your study programme and help develop team work and practical skills.

Specialist Skills
- Responsible tourism
- Hospitality operations
- Marketing
- Customer service
- Retail business
- Day course with Monarch Airlines

Progression Opportunities
Progress to employment in the travel and tourism industry or further training such as Higher Education.

“I chose to do an Apprenticeship - it is a great way of getting your foot in the door of a great career. It gives you experience alongside an education which a lot of employers ask for.”

Beth Collins – Travel Consultant at Premier Travel Award-winning Apprentice
The Uniformed Public Services are always looking for physically fit, enthusiastic and well-prepared recruits to train for a variety of careers within the uniformed services, such as the army, navy, air force, police, fire brigade, paramedics, customs & excise and security.

Key skills of leadership, assertiveness, physical fitness and personal responsibility are very important and emphasised in all of our courses. Our students have an exciting programme of external activities, for example adventure training.

Interested in joining the police force? We now have a Police Academy run in collaboration with Cambridge Constabulary, providing specialist police training including traffic, SOCO and firearms.

Past students have gone on to the Royal Marines, Sandhurst Royal Military Academy, the Fire Service, Police Force, Royal Navy, Army Veterinary Corps and Army Medical Corps. Students have also gone on to university to study subjects including criminology and criminal justice, and each year a significant number of Uniformed Services students progress to Higher Education courses at CRC. See pages 146-147 for information.

POLICE ACADEMY
The college’s successful Police Academy is one of very few in the country and provides a headstart to students keen on joining the police force.

Students in the academy receive extra police training on top of their course and work closely with the police - they attend training camps, undergo firearms instruction and play an active role in police training days. They also learn more about the law, visit magistrates’ and crown courts, take a look at custody units - and even check out the cells.

The Academy is open to a limited number of Level 3 Year 1 students, who are carefully chosen for their communication and leadership skills after a series of role plays, puzzles and mental tests. In their second year, when they reach the age of 18, students can become Special Constables alongside their course.

“I loved the UPS course and would do it all over again if I could. It’s a great course with lots of opportunities – it covers such a wide variety of topics so every class is different.”

Liam York – Fitness Instructor & founder of Moor Fitness
Former Uniformed Public Services student
Now you've achieved your qualification you could head straight into employment and find the right job for you. Or you might want to progress to an Apprenticeship to gain employment and on the job training. At CRC we offer Apprenticeships from Level 2 to Level 5.

MANY OF OUR STUDENTS GO ON TO EMPLOYMENT WITH SOME OF THE REGION’S LEADING EMPLOYERS;
COMPANIES LIKE:
Now you’ve achieved your Level 3, you could head straight to university. Alternatively, you could continue to study with us at Levels 4/5 by doing a HNC/HND or Foundation Degree.

“I would definitely recommend the further education route. My experience with Cambridge Regional College has been overwhelmingly positive and the opportunities provided by the college environment have really suited me. I’ve always had a passion for art and trying new things – now I’m off to start a new challenge at Oxford Brookes studying Fine Art, it is a dream come true for me”. Mariana Garcia
Higher Education

There’s never been a better time to stay local when it comes to Higher Education – so if you want to avoid high tuition fees and expensive accommodation costs, then Cambridge Regional College could be the answer.

We run a range of Higher Education programmes which combine college-based tuition with e-learning, giving you the opportunity to work while you study. Our BTEC Higher Nationals and Foundation Degrees are highly valued by employers looking for skilled and motivated employees. We work closely with local employers to ensure that their involvement will add to your skills base and thereby enhance your future career opportunities.

Our day release Foundation Degree courses are also a great opportunity for training professionals to advance their career.

Our students love our small class sizes and friendly staff. As part of your course you will carry out practical work-based assignments, giving you valuable job skills. You can choose to top up to a full degree at university or progress straight into employment. You can apply for a student loan from Student Finance England to help you with these fees.

Our Access programmes are designed for adults who may not yet have had the opportunity to enter Higher Education. The dynamic courses aim to refresh and extend knowledge, skills and confidence to enable you to gain a place at university. Over 100 students a year study on these popular pathways on either a full-time or part-time basis. Courses take one year to complete.

Entry requirements for Access courses: please see individual course details on our website. However, normally GCSE at 4 or above or equivalent L2 English and maths are required for entry onto most pathways.

The level of study is equivalent to A Level, and Access Diplomas can lead to qualifications such as full Honours Degrees, Higher National Diplomas, Foundation Degrees and Diplomas of Higher Education. You may be eligible for financial support towards costs such as travel, equipment, books and childcare and you may qualify for an Advanced Learner Loan to help pay the tuition fees on your Access programme. If you go on to complete a Higher Education course, you may not have to repay the loan for your Access course.

ACCESS TO HUMANITIES & SOCIAL SCIENCES
Study English Literature, History and Sociology and progress to study a variety of Humanities, Arts, Political and Social Science subjects at degree level. Students wishing to study business-related or computing courses at university often take this Access pathway, although students should check with the Higher Education provider whether this pathway is acceptable for particular Business degree courses.

The course at Huntingdon will also study units in Psychology, Philosophy and Creative Writing.

ACCESS TO SCIENCE
Study any three from Biology, Physics, Chemistry and Mathematics. This pathway also includes a compulsory science practical project which can be tailored to your chosen HE course and your interests (e.g. biological / cosmetic / environmental / pharmaceutical or physical). Former students on the programme have progressed onto a wide range of courses such as Zoology, Marine Biology, Biochemistry, Dietetics and Physics at universities across the UK. GCSE maths and English at grade C or above are normally required for these degree courses so research into progression before application is important.

ACCESS TO SOCIAL WORK & SOCIAL PROFESSIONS
Study Sociology, Psychology and Criminology and progress to study on a variety of degree courses including Social Work, Social Policy, Youth Work and Social Sciences. These courses often lead to careers in Social Services, the Housing Sector, Employment services, Health and Welfare Services and the Criminal Justice System. Social Work degree courses often require students to have GCSE maths and English at grade C or above (or numerical equivalent) (some will accept alternative Level 2 qualifications). We offer this Access programme as a full-time course, and as a part-time evening class. (N.B. Human Biology is offered in the evening not criminology).

ACCESS TO NURSING & HEALTH PROFESSIONS
Study Sociology, Psychology and Human Biology and progress to study on a variety of degree courses including Nursing, Midwifery, Paramedic Training and Operating Department Practice (ODP). These degree courses often require students to have GCSE maths and English at grade C or above (some will accept alternative Level 2 qualifications). Some nursing courses at ARU now require a GCSE Science at grade C in addition to maths, English and the Access Diploma. We offer this Access programme as a full time course, and as a part-time evening class. (N.B. the evening course runs only at CC currently).

ACCESS TO BUSINESS
This programme is for those students who are seeking to follow a Higher Education degree in Business-related subjects, Economics, Marketing, Accounting, International Trade, Finance or Management.

PATHWAYS TO ACCESS
The CAVA/NOCN Level 2 certificate is a Pre-Access qualification for adults (18+) who have not previously obtained a full Level 2. You will study a broad variety of units designed to help you develop effective research and learning skills. These include study management, critical thinking skills and ICT (presentation / word processing) as well as more academic content within Sociology, Politics and Scientific Research Project units. Students will have the opportunity to improve their Functional Skills in maths and English to Level 2. GCSEs in English and maths are integrated into the programme and will be offered to those who are ready to take these exams. The aims of the course are to provide a progression route for those who wish to apply for the Access to Higher Education Course, other Level 3 qualifications or gain skills and qualifications necessary to gain employment.
PROGRAMMES FOR INTERNATIONAL STUDENTS

Our Cambridge International Centre offers full and part-time courses in English as a Foreign Language from beginner to proficiency level. As an international student, you are able to start your course throughout the year. If you are an ESOL student, please check with us for course dates.

Courses cover reading, writing, speaking, listening and culture and life in the UK. All our classes are delivered at Cambridge Campus and develop independent learning skills, analytical thinking, communication and confidence in using English to progress to work or study.

TRAINING PROGRAMMES

We also offer a range of training programmes which are available all year around and can be delivered in the UK or overseas. Subjects include Management, International Law Terminology, IT Management, Health & Social Care, Presentation Skills and Teacher Training programmes. Please call our International Centre on 0044 (0)1223 226317 for full details on programmes available.

ENGLISH AS A SECOND OTHER LANGUAGE

ESOL Skills for Life: For people who live and work in the UK we offer courses from Pre-Entry (beginner) to Level 2 (Advanced).

ESOL 16 - 18 Study Programme: If you have finished school and are aged 16-18, this programme will help you improve your level of English and help you progress to further study or work. Our students have progressed to Level 3 Sports Studies, Construction, IT, GCSE & A Levels.

English as a Foreign Language: We can prepare you for KET, PET, FCE, CAE or IELTS or simply improve your knowledge of English and recognise your progress with a college certificate.

IELTS Preparation: British universities and colleges ask for a good Academic IELTS score as part of their entry requirements. This course teaches exam techniques and study skills to be successful at IELTS.

English plus Other Subjects: This course combines language skills and other subjects. You can choose to study English with Computing, Business Management, Design or any other academic/vocational course.

Academic English Programme: This is a course for individuals who want to improve their level of English so that they are able to join academic or vocational courses in the UK or other countries, or those who want to improve their written English.

English for Specific Purposes: Courses are designed to address language skills required in the workplace or in a specialist subject/area and can be taught flexibly throughout the year.

English for Professionals: Designed to give confidence to communicate in English in the workplace, the course will enable you to learn many practical skills such as writing business letters, speaking in meetings and giving presentations. You can also prepare for the Cambridge Business English Certificate exam as part of this course.

Teacher Training: We offer CELTA, intensive, part-time or blended as well as a range of bespoke programmes.

SHORT COURSES

Short Courses: Short courses are flexible and are delivered at CRC or in the students’ home countries. The courses cover English and other subjects and aim to improve confidence in the use of the language.

Summer/Winter/Spring Schools: We offer four different types of summer, winter and spring schools - English for Teachers, English for Professionals, Academic English, and General English. Courses last from a minimum of two weeks to a maximum of two months.

University Foundation Programme/Access to HE: This course provides an intensive, fast-track route to a university place in just one year. You can choose to start in September or January. The programme is particularly suited to students aged 17 or over who are willing to study hard on an intensive course, and need English support and study skills to enable them to succeed at university. IELTS preparation and English support are provided as an integral part of the programme.

We offer two options:

- Business Studies: This programme is for those students who are seeking to follow a Higher Education degree in IT, Business-related subjects, Economics, Marketing, Accounting, International Trade, Finance or Management.
- Science: This programme is for students seeking to follow a Higher Education degree in Engineering, Science or Health and Medical fields.

Higher National Certificates & Diplomas (HNC & HND): Cambridge Regional College offers a range of Higher National Certificates (HNCs) and Higher National Diplomas (HNDs), delivered in the UK. HNCs and HNDs can be tailored to suit the specific needs of individuals and groups and are also offered through some of our international partners. The areas of study covered are Engineering, IT, Business and Management.

Cambridge Regional College offers a range of Higher National Certificates (HNCs) and Higher National Diplomas (HNDs), delivered in the UK. Apply now! Call us on 01223 226315
You can apply for a course with us at any time, but the sooner you apply the sooner we can secure your place. If you are currently attending one of the Cambridge Area Partnership (CAP) schools, you should apply via the UCAS Progress online application process which your careers teacher will advise you of. If you do not attend one of the CAP schools or if you are a mature student, you can apply online on our college website at www.camre.ac.uk/apply. On receipt of your application, we will invite you in to meet us. Alternatively, apply in person at an Open Day and secure your place on the day*.

Whether you do better than expected, or not as well as you’d hoped, get in touch and let us know or visit our Advice Cafés that take place from GCSE Results Day onwards to discuss your options. Whatever the outcome we have the courses to ensure your career stays on track.

Check out when our Advice Cafés take place at www.camre.ac.uk/events

Your first week will involve a comprehensive induction to familiarise yourself with the college and other new students.

Once you have been in to College and met our expert staff, we will offer you a place. Once you have accepted our offer, your place will be secured*.

*Subject to terms and conditions.

You will be invited to enrol with the College, subject to meeting the entry requirements. Make sure you bring your results! You will be given all the details about your first day at enrolment.

These events are held at the beginning of July. They give you the opportunity to participate in taster activities related to your course and meet other people who will be studying with you from September.

Your first week will involve a comprehensive induction to familiarise yourself with the college and other new students.
FEES & SUPPORT

Education is free for students under 19 at the start of their course, and there are several financial support schemes that may be available to help you fund additional expenses like travel.

FULL-TIME COURSES

Under 19
Study programmes are free (including tuition, enrolment, examinations and material fees) to students who are aged 16-18 years at the start of their programme, with the exception of examination re-sit and re-entry fees. Costs for kit and college trips may be charged but these will be notified to you prior to the start of your course.

19 and over
Students over the age of 18 may have to pay tuition fees and other course related fees, depending on your previous qualifications and age. You may be eligible for free tuition on courses for full Level 2 or 3 qualifications; if you currently do not hold a full Level 2, Level 3, or higher qualification.

APPRENTICESHIPS

On an Apprenticeship you do not pay any course fees, and you will receive a salary from your employer. For more on Apprenticeships, see pages 10-12.

HIGHER EDUCATION

The tuition fees for your course will depend on the qualification being studied, please check the course details at www.camre.ac.uk/he.

INTERNATIONAL PROGRAMMES

The tuition fees vary depending on the programme and there may be additional fees for accommodation and equipment; find the course details at www.camre.ac.uk/international.

FINANCIAL SUPPORT

16-19 Vulnerable Learner Bursary
You may be eligible for this bursary if you are 16 or over but not yet 19 on 1 September 2019 and are either:
• In care
• Have left care
• Independently receiving Income Support
• Independently receiving Employment Support Allowance and Disability Living Allowance.

16-18 Discretionary Bursary
16-18 Discretionary Bursary Funds are available to help students “in real need” (ordinarily families under £28,000 annual household income). It can be used as a contribution towards college costs such as kit, equipment, residential fees, etc. Where a County Council is unable to provide support with transport costs, then a contribution can be made towards either college or public transport.

Free Meals
Free meals will be offered to learners who receive, or whose parents/carers receive, certain types of income related benefits. Learners must be aged 16-18 on 31 August 2019, if aged 19-25 learners must also have an Education, Health and Care Plan (EHCP) assessed by the Local Authority and be studying a Government funded full-time course.

Childcare Bursary
This specific bursary assists students aged 16-19 with a contribution towards term-time childcare costs. Application forms are available online and from our Finance Office. All applications will be financially assessed. Students aged under 19 should apply to Care to Learn for assistance with their childcare fees: www.gov.uk/care-to-learn or contact the Learner Support Helpline on 0300 3038610.

19+ Discretionary Bursary
A discretionary bursary is available to help 19+ students who are enrolled onto a Government funded course and from a low income household (ordinarily under £28,000 per annum) with a range of study costs including kit, equipment, books, transport and other learning-related expenses. Students experiencing financial hardship are encouraged to apply.

Advanced Learner Loans
If you are 19+ and not eligible for a tuition subsidy you may qualify for an Advanced Learner Loan to help pay for your tuition fees. These loans are administered through the Student Loans Company with a minimum loan available of £300 to cover fees for an eligible full Level 3 or higher qualification. For more information on these loans and their eligibility criteria, please visit www.gov.uk/advanced-learner-loans.

Advanced Learner Loan Discretionary Bursary
Learners who are 19 or over, have an approved Advanced Learner Loan and are from a low income household (ordinarily under £28,000 per annum), may apply for a contribution towards the cost of travel and term-time only childcare. To apply, visit - www.camre.ac.uk/learnersupport/financial-support where you can download our Financial Support Application Form or apply online. You can also request a paper copy from the college.
