Choosing your next step is exciting, but might be a little daunting too. There is a lot of choice – of places to study, of courses, and of possible careers, but we at CRC are here to help you make a great choice.

Whether you already know what you want to do, or are still exploring areas that interest you, we can help you on your journey by providing you with the best opportunities to gain the skills, knowledge and qualifications to succeed.

As one of the leading further education colleges in the country, we offer exceptional, specialist training in a huge range of subjects. We always put your success at the heart of everything we do.

We hope you will find this prospectus useful in exploring your options, learning what college life is all about and finding out how you can achieve your goals and ambitions.

Mark Robertson, Principal and Chief Executive
At Cambridge Regional College we aspire to be successful with everything we do and encourage students at college to get involved in as many opportunities as you can. As CRC Students’ Union President I would like to welcome you to CRC. I am proud to be representing the views of students at both campuses and look forward to meeting you.

Sophie Day, Students’ Union President

www.camre.ac.uk
The college offers a wide range of enrichment activities, from Yoga classes and sports tournaments to student-run clubs and money management workshops. You are encouraged to get involved in college life, and will be supported to set up clubs and societies. A large number of students organise events for charity – cake stalls and sponsored events are regular features.

**STUDENT AMBASSADORS**

The #WeAreCRC Ambassador Programme gives you the opportunity to get involved in supporting college events, activities and outreach projects, gaining valuable volunteering hours and an insight into different areas of employment.

**STUDENTS’ UNION**

As a student at CRC you automatically become a member of the Students’ Union. The Union aims to enhance your experience at college by supporting societies and clubs and by organising events and awareness raising campaigns on issues that affect you as students. Students’ Union officers are elected each year and represent the student body in order to ensure that you have a voice within the college.

Once enrolled you are eligible for a Totum card that entitles you to a wide range of discounts in many places such as high street stores, cinemas and restaurants (there is a small charge for this Totum card). Download the Totum app for free discounts.

**SPORTS CENTRE**

The college’s sports centre and gym are free to use – there is just a £20 induction fee payable for the gym. Table tennis tables are available at our Cambridge and Huntingdon campuses. A new outdoor fitness trail has also been installed.

The college offers something for everyone in its activity programme, whether you love competitive sport, enjoy debating or would prefer to develop your creative side. One of the highlights is the Race for Life which takes place in May.
GET THE EDGE

Our focus is your success and with Cambridge Regional College you can get the edge whether that’s in this competitive job market, gaining a place at university or finding the perfect apprenticeship. You might not know yet what you want to do, many don’t, but through college you can explore your options and with our suite of tools and advisors on hand, to help you every step of the way, you can find your path to the perfect career.

IMPARTIAL CAREERS ADVICE

Our team of qualified, expert careers advisers are on hand with expert careers information, advice and personal guidance to help you work out where you want to go and how to get there.

There are many ways to get to your perfect job, and whether that’s applying straight from college, gaining a place at university or helping you find the perfect apprenticeship – we’re here to help. Why not drop in or call in to speak with one of the team?

CAREER COACH

Part of the challenge of finding the right career path is the huge amount of jobs and roles to explore. Why not try Career Coach, our online careers assessment tool giving you careers information on job roles, salaries and job opportunities in our region.

Taking the online careers assessment can open up a whole new world of career opportunities to you, and advise you on the best course to take to get into that profession. Try it today www.camre.ac.uk/careercoach.

WORK EXPERIENCE & INDUSTRY PLACEMENTS

We work with over 1,500 employers across the region to train and develop their people, and many offer work experience and industry placements to you. Those on vocational study programmes will have work experience as part of the course, and for some this will be a full industry placement where during term time, you will spend two days a week on placement.

This puts you steps ahead when applying for roles as you will be able to reference real-world job experience and valuable skills employers are seeking. Plus you get to sample working life in chosen professions and sectors helping you identify what suits you.

APPRENTICESHIP TALENT BANK

Apprenticeships are a fantastic way to get qualified and get a head start on your career. Apprenticeships start from Level 2 and go up to degree level, you can achieve all of this without the expense of university and earning a wage whilst you move up the career ladder. Our Apprenticeship Team are on hand to help you find the right apprenticeship for you, and support you through the application process.

GOING TO UNIVERSITY

Our team of advisors are here to help you with your UCAS applications, and will work with you through the process from finding the right university course to your application.

EMPLOYABLE SKILLS

All our programmes focus on getting you work-ready, in your approach, mind-set and skills base to meet the expectations of employers. From developing your confidence, communication and time management skills to experience with employers, you’ll improve your employment prospects at CRC.

CAREERS PROGRAMME

Throughout the year we work with you to develop your potential. Events included in the programme are employer talks, higher education fairs and enterprise contests.

We are dedicated to preparing you for future success. Central to this are our #WeAreCRC values, which are embedded throughout your study programme. We will help you grow in confidence and develop the skills sought after by employers.
OUTSTANDING FACILITIES

Study your chosen specialism in outstanding facilities that are designed to help prepare you for your chosen career. CRC has some of the best facilities in the country and you’ll get the chance to work on live, real-world projects.

So whether you choose to study at our Cambridge Campus or our Huntingdon Campus, you’ll benefit from CRC’s award winning staff and outstanding facilities.

INDUSTRY STANDARD FACILITIES FOR YOUR CHOSEN CAREER

SUPPORT
WE ARE HERE TO HELP YOU SUCCEED

1 CAREERS INFORMATION, ADVICE & GUIDANCE
Exploring your options and finding the right career path for you can be daunting. Our expert careers advisors can provide you with impartial information, advice and guidance to help you make informed decisions about your next steps.

2 WELFARE SUPPORT
Money matters shouldn’t stop you from coming to college. Our Bursary and Finance Advisors are available to advise you on sources of financial help including any bursaries or support funds that may be available to you to help with meals, transport or course costs. See more on pages 174-175.

3 FINANCIAL SUPPORT

4 PROGRESSION SUPPORT
Your physical and mental wellbeing can affect your learning. Should you ever need to talk to someone confidentially about personal or emotional concerns, our Welfare and Support Team, based in The Hub, are here to help.

5 LEARNING SUPPORT
Specialist learning support staff will work with you to develop your independent learning skills and to ensure that you acquire the knowledge and skills to approach your studies and learning. The learning support team will assist you with developing a range of learning support including: communication support; dyslexia and dyscalculia support; strategies for learning, including further literacy and numeracy support and approaches to learning, which will help you to develop. The team will help you develop organisational and study skills to help you approach your studies and achieve your goals.

6 PERSONAL SUPPORT
Specialist learning support staff provide personal support to students with a broad range of disabilities. Support will be personalised to your own individual needs. Visually impaired/Blindness – Sighted guides, Braille, adapting materials, visual description and advice on assistive technologies to enable you to access computer programmes. Physical access needs – Mobility assistance, personal care, note taking and advice on assistive technology. Learning disabilities – Support to empower you to become more confident in communication, ICT, English and maths. D/Deafness – British Sign Language or Sign Supported English Communications, note-taking, mentoring and personalised support to help you develop your writing skills. Autism – Study and communication strategies through personalised guidance and mentoring to support you to become more independent as you prepare for adulthood, including life skills. Communication – Develop your confidence with mentoring support, note taking, assistive technologies and adapted resources. Education, Health and Care Plan support – Experienced Learning Support Managers will provide you with the initial guidance on the process and procedures for access to these assessments. We work with you whilst you are at college to support you in your annual reviews.

7 TRANSITIONS

THE HUB
Each campus has a central Hub where you can access student support services and enrichment to help you succeed and overcome any challenges you face.

Apply now! See pages 36-37 or call us on 01223 226315

TRAVEL
GETTING TO COLLEGE

CRC is one of the easiest colleges to get to. There are discounted train tickets for students and we run a FREE shuttle bus to and from the local stations to our campuses. Choose the college buses or use the Guided Busway which runs between both campuses.

Feel free to get in touch if you’re worried about getting in to college, or the cost of travel. We will be more than happy to give you advice and to help you find out if bursaries are available to assist financially.

FOR FURTHER DETAILS
www.camre.ac.uk
Visit our transport services as necessary. Bus charges, for college buses only, are available online. We have extensive bursaries available to support those who may need help with travel costs. Here you can find an overview of the bus routes. These may change year to year, for the full 2019/20 timetable, fees and latest information, visit www.camre.ac.uk/transport

COLLEGE BUSES
Our buses travel from Cambridgeshire, Essex, Hertfordshire, Peterborough and Suffolk to pick up students. Operating during term-time, the buses are timed to arrive prior to 9.00am, Cambridge Campus, and 9.15am, Huntingdon Campus, and depart at 4.00pm, Cambridge Campus, and 4.15pm, Huntingdon Campus. Our bus pass charges, for college buses only, are available online. We have extensive bursaries available to support those who may need help with travel costs. Here you can find an overview of the bus routes. These may change year to year, for the full 2019/20 timetable, fees and latest information, visit www.camre.ac.uk/transport

Our campuses are easily accessible by public transport, and we run extensive college bus routes. Use this quick guide to check how you could get into college. Not all stops are listed here and only the connecting Guided Bus is shown between campuses, there are even more routes you can find through the regional bus service, be sure to check their websites.
YOUR ROUTE TO A GREAT CAREER

There are lots of ways to achieve your goals, whether that’s a university place or a dream career. The important thing is finding the right route for you, so that you can achieve your potential.

It’s not where you start, it’s where you finish.

www.camre.ac.uk

19
Many of our subject areas are available as a full-time course or an apprenticeship. Use this quick guide and checklist to reflect on what would be best for you.

**APPRENTICESHIP ROUTE**

Apprenticeships combine work and study by mixing on-the-job training with an employer, classroom learning at college and self-study. You get started on your career straight away, earn a wage and gain qualifications and experience that will help you progress up the career ladder, move on to degree level apprenticeships or university. Find out more on Pages 24-31

### Apprenticeships are right for you if:

- You are ready to commit to a full-time job and start earning.
- You know which career area you want to go into and want to learn on the job.
- You are happy to study independently, get support through regular visits from your trainer and, for some programmes, a college day-release to build up your knowledge.
- You enjoy practical, hands-on learning and want to explore the full range and options of a subject.
- You are not quite ready for work yet and love college life and seeing your college friends every day.
- You love getting involved in special projects, work experience and competitions to help you learn.

---

"I’ve learnt hands-on, useful work skills in so many areas. It is all hands on deck when there is an event, so I’ve learnt a lot from colleagues. I feel I’ve experienced more than if I had just learnt in a classroom. Experiencing the buzz of working in marketing rather than learning from a text book has inspired and motivated me. Apprenticeships are a win-win because you experience work, earn money and get a qualification at the end of it."

Deanne Stevens

Events and Social Media Apprentice & Winner of CRC Digital Apprentice of the Year 2019

---

"I came to the UK from Nigeria in 2016 and from day one the teachers have been so supportive and kind at all times. If I made mistakes, especially with my writing, they helped me out and had lots of patience. CRC has given me confidence, I’ve been pushed beyond my boundaries, I’ve got goals. I believe in myself and know I can achieve. I may move on to Level 3 or may go on to the Access to Nursing course."

Ehi Williams

Level 2 Health & Social Care & Principal’s Award winner for overall Student of the Year 2019

---

**PROFESSIONAL & TECHNICAL FULL-TIME ROUTE**

Professional and technical full-time courses are practical and hands-on courses that prepare you with the skills and knowledge in your chosen subject area. The qualification and skills you gain can lead to university, an apprenticeship or a job.

You would be attending college, usually, three days a week. To gain real world experience and industry-ready work skills, the courses include work experience and, for some courses, you will undertake an Industry Placement for two days a week in term time.

You will get full access to all of the college support and facilities available on both campuses.

**Full-time college study is right for you if:**

- You know which career area you want to go into and want to learn on the job.
- You are ready to commit to a full-time job and start earning.
- You are happy to study independently, get support through regular visits from your trainer and, for some programmes, a college day-release to build up your knowledge.
- You enjoy practical, hands-on learning and want to explore the full range and options of a subject.
- You love getting involved in special projects, work experience and competitions to help you learn.
Cambridge Regional College offers qualifications from entry through to Level 5 Higher Education. Not sure which level to start, at or what qualification will suit you? Find out all you need to know here.

### What can I study?

| Level 2 Intermediate Level | 1 year | Level 2 Full-Time Courses | Ideal if you are interested in a broad area of work. Available in Diploma / Extended Certificate / Certificate. Upon completion, the qualifications are equivalent to:  
- Level 2 Diploma - 60 Credits = 4 GCSEs grade 9 - 4 (A*-C)  
- Level 2 Extended Certificate - 30 Credits = 2 GCSEs grade 9-4 (A*-C)  
- Level 2 Certificate - 15 Credits = 1 GCSE grade 9 - 4 (A*-C). |
| Level 2 Apprenticeship |  
- Ideal if you are starting your career. Made up from relevant occupational qualifications and transferable skills. Upon completion, the qualifications are equivalent to 5 GCSEs grade 9 - 4 (A*-C). |
| Level 2 Vocationally-specific Qualifications |  
- Vocational Diplomas through industry or job specialist Awarding Bodies. |
| Level 3 Advanced Level | 2 years | Level 3 Full-Time Courses | Typically 2 years | Develop specific work-related skills and knowledge. Choose from Extended Diploma, Diploma, Extended Certificate and Certificate. Upon completion, the qualifications are equivalent to:  
- Level 3 Extended Diploma D*D** = 168 Tariff Points = 3 A Levels (A*)  
- Level 3 Diploma D*D** = 112 Tariff Points = 2 A Levels (A*)  
- Level 3 Extended Certificate D* = 56 Tariff Points = 1 A Level (A*)  
- Level 3 Certificate D = 28 Tariff Points = 1 AS Level |
| Level 3 Apprenticeship |  
- Made up from relevant occupational qualifications and transferable skills. Upon completion, the qualifications are equivalent to 2 A Level passes. |
| Level 3 Vocationally-specific Qualifications |  
- Vocational Diplomas through industry or job specialist Awarding Bodies. |
| Level 4/5 Higher Education | 1-2 years | Level 4/5 Apprenticeship |  
- Ideal for managers and aspiring managers. Made up from relevant occupational qualifications and transferable skills. Upon completion, the qualifications are equivalent to 2 A Level passes. |
| Level 4/5 Foundation Degree |  
- Study in a vocational specialism; a Level 5 qualification which combines academic study with work place learning. Designed in association with employers. |
| Level 4/5 Higher National Certificate (HNC) / Higher National Diploma (HND) |  
- A work-focused and flexible alternative to a degree and an excellent way of enhancing your job prospects. Some HNCs and HNDs can take you directly to the second or third level of a degree. |
| Level 4/5 Higher Education |  
- For Apprenticeships you will need English and maths GCSE at grade 4 (C) or above. See pages 24-31. |
| Level 6 Apprenticeship |  
- Study for a Level 6 Apprenticeship with some HNC/ HNDs you can go straight to year 3 of a degree Employment |

BENEFITS OF AN APPRENTICESHIP

• Earn a wage while you learn
• Receive ‘on the job’ training
• Gain the skills that give you the edge in the job market
• Benefit from an individual learning programme
• One-to-one tuition from CRC’s specialist industry experts
• Opportunities to progress into management or higher education

WHAT IS AN APPRENTICESHIP?
Apprenticeships combine work and study by mixing on the job training and classroom learning. You’ll be employed to do a real job, with a real wage and other employee benefits whilst studying for a formal qualification.

Apprentices follow an approved programme, which means you’ll gain a nationally-recognised qualification at the end of your apprenticeship that will enable you to progress in your career and your studies.

We are a leading provider of Apprenticeship programmes, with regular assessments and progress reviews. We work with more than 1,450 local, regional and national employers to offer you the skills that lead to great careers.

BENEFITS OF AN APPRENTICESHIP

STARTING YOUR CAREER
We work with employers in all sectors from engineering and catering, to science, computing and many more.

By studying an Apprenticeship you will already be on the first step of your career, gaining great work experience.

WHAT QUALIFICATIONS DO I GET?
Studying for an Apprenticeship means you will achieve a qualification that is relevant to your industry. Often these will be awarded by a relevant professional body to your specialism, for example, in accountancy your qualification might be awarded by the Association of Accounting Technicians. There may be a requirement for you to continue to work towards a qualification in English, maths and ICT.

ENTRY REQUIREMENTS

LEVEL 2
English and maths GCSE at grade 3 (D) or above.

LEVEL 3
English and maths GCSE at grade 4 (C) or above.

LEVEL 4/5
Entry requirements may vary dependent on the subject area.

TRAINEESHIPS
Traineeships are for young people looking for an apprenticeship or needing to resit their maths and English exams. It is a 10 week programme including classroom based work and work experience alongside support to secure an apprenticeship.

Disclaimer - Apprenticeships on offer vary depending on employer demand and changes in government policy. This list provides an overview of the Apprenticeships available but can change. To ensure you are looking at the latest options please visit the website at www.camre.ac.uk/apprenticeships. This table is correct at the time of printing - September 2019.
HOW TO APPLY FOR AN APPRENTICESHIP

1. Find the Apprenticeship vacancy that you are interested in, or express an interest in an Apprenticeship by completing a CRC application and sign up to our job alerts to keep up to date with all the latest apprenticeship job vacancies. [www.camre.ac.uk/apprenticeships](http://www.camre.ac.uk/apprenticeships)

2. Visit an open day or apprenticeship information evening to meet our apprenticeship team and get advice on how to find your dream apprenticeship. [www.camre.ac.uk/events](http://www.camre.ac.uk/events)

3. Use our apprenticeship vacancy listing on our website to apply for particular job vacancies. [www.camre.ac.uk/apprenticeshipvacancies](http://www.camre.ac.uk/apprenticeshipvacancies)

If you have any questions about our Apprenticeship programmes and how they could help kick-start your career, please contact our Apprenticeships Team:

APPRENTICESHIP CASE STUDY

Joshua Morrow
Studied Business Administration Apprenticeship and Overall Apprentice of the Year 2018
Apprenticeship with Domino

“It was really motivating to be able to implement what you learn into work situations and to be able to see the results of your efforts. It is hard work, but it involves managing both college and work tasks and projects, which is a valuable skill and it is important to develop this early.

“The quality of the tuition and the support I received from Cambridge Regional College was first class, in particular from my assessor, who encouraged and motivated me throughout my apprenticeship. Everyone who I had contact with at CRC was attentive and responsive to all my requests and without their help I wouldn’t have achieved the things I have so far.”
WHAT FULL TIME COURSES CAN I STUDY?

Study at Cambridge Regional College and choose from two great campuses in Cambridge and Huntingdon! You will benefit from industry standard, state-of-the-art facilities designed to create the perfect learning environment.

ONE GREAT COLLEGE
TWO GREAT CAMPUSES

Apply now! See pages 36-37 or call us on 01223 226315
Studying with us means much more than just gaining a qualification in your chosen subject area. Your study programme is designed to provide you with the skills that are essential for employment, personal and professional development.

CRC is one of a select number of providers to deliver the new Technical Levels also known as 'T-Levels'. These will be available from the 2021/22 academic year and CRC will be delivering them in two subjects, Digital Business Services and Education and Childcare.

The T-Levels are part of the Government’s planned updates to technical education. Between now and 2022, 15 new pathways are being developed in 15 sectors where substantial technical training is required to progress into employment. Look out for more information on our website.

If English is your second or a foreign language to you and you would like to improve your English to progress onto further study or work, you can join our ESOL 16-18 Study Programme. If you have finished school and are 16-18, this programme will help you improve your level of English in order to progress. Our students have progressed onto many programmes from sports studies, construction, IT to A-Levels. For more information, visit www.camre.ac.uk/ESOLstudyprogramme.
You can apply for a course with us at any time, but the sooner you apply the sooner we can secure your place. If you are currently attending one of the Cambridge Area Partnership (CAP) schools, you should apply via the Mychoice@16 online application process which your careers teacher will advise you of. If you do not attend one of the CAP schools or if you are a mature student, you can apply online on our college website at www.camre.ac.uk/apply or use the form on the back of this prospectus. On receipt of your application, we will invite you in to meet us. Alternatively, apply in person at an Open Day and secure your place on the day.

Once you have been in to college and met our expert staff, we will offer you a place. Once you have accepted our offer, your place will be secured*.

*Subject to terms and conditions.

These events are held at the beginning of July. They give you the opportunity to participate in taster activities related to your course and meet other people who will be studying with you from September.

Whether you do better than expected, or not as well as you’d hoped, get in touch and let us know or visit our Advice Cafés that take place from GCSE Results Day onwards to discuss your options. Whatever the outcome we have the courses to ensure your career stays on track.

You will be invited to enrol with the college, subject to meeting the entry requirements. Make sure you bring your results! You will be given all the details about your first day at enrolment.

During the first half term you will have a full induction to familiarise yourself with the college and other new students.

**STARTING COLLEGE**
Our Art & Design courses attract promising young artists from across the region who are looking to work at the highest of standards. Our students achieve excellent results and progress to top universities and art schools across the country.

You will learn from artists and designers who are current practitioners and experts in their fields, from art, design, fashion, graphic design, 3D and textiles to contemporary fine art, digital manipulation and more.

Guest speakers from industry, live assignments, competitions, internal and external commissions and work experience give a real insight into working as a practising artist or designer in industry. End-of-year summer exhibitions provide a fantastic showcase opportunity for your work.

Past students on these courses have gone on to study film-making, architecture, graphic design, fine art, fashion management and illustration at universities such as Leeds, Nottingham, the University of the Arts London and Norwich University of the Arts, Chelsea, Central St Martins, Goldsmiths, The Slade and De Montfort University.

Level 1
• UAL Award/ Diploma in Art & Design

Level 2
• UAL Award/ Diploma in Art & Design

Level 3
• UAL Diploma/Applied General Diploma and Extended Diploma Art & Design
• UAL Level 3/4 Diploma in Foundation Studies - Art & Design (post 18)

With the opportunity in year two to specialise in textiles and fashion, graphic design or photography.

WHY CHOOSE CRC?
• Fantastic opportunities to work on commissions and complete work experience
• Outstanding facilities in all creative areas
• Superb public exhibitions to showcase student work
• Lecturers are practising artists and designers
• Exceptional achievement and progression to employment and Higher Education

UAL Level 3/4 Foundation Diploma in Art & Design

This pre-degree intensive course is designed to encourage exploration, experimentation and risk taking, which will extend your critical independence, creative practice and will also nurture your contextual understanding of global art. You will be asked to reject your preconceptions and take risks outside your comfort zone which will develop your creative problem solving and lateral thinking. The course will culminate with you producing an independent self-directed project where you could specialise in Fine Art, Graphic Communication, Fashion/Textiles, 3D Design, Photography/Lens-based Media, Interactive Media, Film/Digital Media.

Specialist Skills

- Critically review the effectiveness and appropriateness of methods, actions and results
- Critical and contextual awareness of different perspectives and approaches within art, design and related subjects
- Employability skills and industry experience
- Communication skills
- Ability to work across discipline and at Level 4 through the final major project
- Employability skills

Progression Opportunities

The programme is delivered over one year and is a progression route for learners who have completed A Levels or the Level 3 Extended Diploma in Art & Design and want an extra year to broaden their awareness, applied thinking and extend their critical understanding and independence. This qualification helps you to progress on to BA/BSc/FdA at a Higher Education institution, Advanced Apprenticeship within the wider commercial/creative based industries or employment e.g. a design practice, photography assistant or self-employment.

“CRC gave me a great start and the art department facilities are some of the best I have seen. I have a passion for design – I design stock pieces for Cellini Jewellers and work with my customers to design one-off, bespoke items of jewellery. It was fantastic to win Gold, Silver and Bronze in the Jewellery Oscars and crown it all with the Goldsmiths Company award for 2D Designer of the Year.”

Jack Bainbridge
Award-winning Jewellery Designer Former Art & Design student
A qualification in Beauty Therapy can lead to an exciting range of careers in a salon, a spa, working abroad or even on a cruise liner. You may use it as a springboard to manage or run your own salon.

There are a wide range of programmes for you to choose from, depending on your skills and qualifications. You can even specialise in media make-up and create special effects for film, television or theatre - see pages 112-117 for more details.

All programmes are delivered in our state-of-the-art training salons. We also have commercial salons where you will be able to gain valuable real-life work experience.

Many of our beauty students compete in the country’s top skills competitions with great results. The college has also been chosen to host a number of WorldSkills events - a recognition of our superb facilities.

Entry

- Introduction to Hairdressing & Beauty Therapy
- Beauty Therapy Level 2
- Technical Certificate in Beauty Therapy
- Intermediate Apprenticeship in Beauty Therapist Level 3
- Advanced Technical Diploma in Beauty Therapy
- Advanced Apprenticeship in Beauty Therapy

WHY CHOOSE CRC?

- Real work experience in our fabulous commercial salons
- Industry-qualified & experienced teaching staff
- Outstanding facilities & purpose-built training salons
- Highly successful student achievement in national competitions
- Close links with employers providing great employment prospects

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 24-31 or www.camre.ac.uk/apprenticeships

“The beauty team helped me achieve so much. I have all the staff to thank as they encouraged me to compete in WorldSkills where I came 1st in the UK and 4th in the world. Now I am a judge for competitions and manager of Salon at Number 5 in Cambridge.”

Katie Wright – Manager of Salon at No 5
Former Beauty Therapy student & WorldSkills Champion
A career in business is versatile, exciting and challenging, opening the door to a wealth of opportunities. Our business courses will put you on the road to a successful career.

Our courses will help you develop your entrepreneurial skills to give you a wider understanding of the business market. You can learn how to set up and run your own business, build networks and market and sell your ideas to potential sponsors and partners.

Our Level 2 programme enables you to gain the right skills to help you progress into employment or on to our Level 3 programmes, which can lead to a degree course.

Past students have gone on to study at universities including Durham, Leeds Met, UEA and Manchester Met, in subjects ranging from marketing and events management to international business and finance. Students can also choose to study Higher Education courses in business at CRC, or further their qualifications through an Apprenticeship.

WHY CHOOSE CRC?

• Opportunities to develop business skills and knowledge through enterprise activities
• Excellent progression routes to university
• Great work experience opportunities to boost job prospects
• Experienced tutors with industry and management experience
• Close links with local businesses
• Chance to start building your business networks

Level 4/5
• Level 4 HNC Diploma in Business
• Level 5 HND Diploma in Business
• Higher Level Apprenticeships in Business Administration Management, Operations and Department Manager and AAT Professional Accountant
Business

This course will give you a range of transferable business skills and allows you to specialise in an area of business that interests you. Live assignments and work experience will build your understanding and experience of different sectors.

Specialist Skills

• Business awareness skills
• Communication skills including email, reports, summaries, letters & presentations
• Ability to communicate key points
• Marketing & enterprise
• Customer service

Progression Opportunities

Options include progressing to the Level 3 in Business, pursuing an Apprenticeship in Business Administration or Accountancy as well as seeking employment in sales, marketing, retailing or customer service.

Business

This two year programme will give you a range of transferable business skills allowing you to specialise. Live assignments and work experience will build your understanding of different business sectors. Teamwork, negotiation and project management skills will be developed plus your ability to present, manage finances and write a company report.

Specialist Skills

• Experience in setting up a business
• Develop marketing strategies & apply to a client brief
• Business planning & pitching
• Research techniques
• Enterprise skills & innovative ideas

Progression Opportunities

Progression to an Apprenticeship or Higher Education BA/BSc(Hons)/Fda/HNC/HND course, straight into employment within accounts, sales, marketing, advertising, recruitment, events management or retailing or set up your own business.
NEW LEVEL 3 ADDITIONAL COURSE

Level 3 Applied Law

The Extended Certificate in Applied Law is an excellent opportunity for students studying Business who are looking to progress into the field of Law. The qualification is worth 1.5 A Levels and gives students extra UCAS points to strengthen their university or next steps applications to support them on their career journey.

For further information, please see pages 102-105.

LEVEL 4/5

Level 4 HNC Diploma in Business
Level 5 HND Diploma in Business

For further information, please see pages 172-173 or visit our website www.camre.ac.uk/HE.

APPRENTICESHIPS

Want to earn while you learn? An Apprenticeship could be for you.

We offer:
- Level 3/4: Accountancy (AAT)
- Level 2/3/4: Business Administrator
- Level 2/3: Customer Service
- Level 3: Digital Marketer
- Level 3: Team Leading
- Level 4: Management

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 24-31 or www.camre.ac.uk/apprenticeships.

“I have always had an interest in business. The tutors are really good and are very supportive.”

Killian Carline
Level 3 Business
Our specialist Early Education programmes from Level 1 to Level 4 will give you real and practical experience and can lead to a wide range of careers in early education.

You will be taught and supported by experienced professionals and will receive valuable work experience with local employers, developing the skills and knowledge needed to be successful in your career.

Careers in Early Education are thriving and the Cambridgeshire area has a growing need for well-qualified staff in day nurseries and primary schools.

Students on our Early Years Education courses undertake valuable work experience in nursery settings, pre-schools and primary schools throughout the year.

Past students have gone on to study for a degree in childhood studies, criminology, social work, and teaching at universities including ARU, Birmingham City and Cardiff. Apprenticeships in children’s nurseries are also a popular choice.

EARN UP TO £30k AS A SENIOR EARLY YEARS PRACTITIONER

WHY CHOOSE CHILDCARE & EARLY EDUCATION?

WHY CHOOSE CRC?

WHAT WE OFFER AT CRC

Level 1
- CACHE Award/ Certificate/ Diploma in Caring for Children
- CACHE Diploma in Introduction to Health, Social Care and Children’s & Young People’s Settings

Level 2
- CACHE Diploma for the Early Years Practitioner
- Intermediate Apprenticeships - Supporting Teaching and Learning

Level 3
- NCFE CACHE Technical Certificate/Diploma in Childcare & Education (EYE)
- Advanced Apprenticeships in Childcare and Supporting Teaching & Learning

Level 4
- ARU Foundation Degree Early Years, Playwork & Education

• Level 3 Early Years students gain a licence to practice and Early Years Educator status
• Substantial work experience through industry placements
• Highly qualified and professionally experienced tutors
• Guest speakers offer introductions to career pathways in the sector

EARN UP TO £30k AS A SENIOR EARLY YEARS PRACTITIONER

**EARLY YEARS SUPPORT SPECIALISTS**

- Childminder
- Childcare Practitioner
- Early Years Educator
- Creche Provider
- Playworker
- Nursery Manager
- SEN Coordinator
- Safeguarding Officer
- Family Support Worker
- Development Officer
- Child Psychologist

**TEACHING**

- Special Educational Needs Teacher
- Teaching Assistant
- Early Years Teacher
- Primary Teacher
- Head Teacher

**LEVEL 1**

**CACHE Caring for Children**

This one-year course will give you a good understanding of the skills and knowledge needed to care for young children.

**Specialist Skills**

- Growth & development
- Children’s play
- Supporting babies’ development
- Healthy living
- Listening & talking to young children
- Child health
- Play and learning
- Understanding children’s additional needs
- Observation, assessment and planning

**Progression Opportunities**

This Level 1 qualification supports you in preparing for further training or moving towards the world of work. You will be able to achieve Level 2 units to gain an understanding of the rigour and level of study required to progress to the Diploma for the Early Years Practitioner.

**LEVEL 1**

**CACHE Diploma in Introduction to Health, Social Care and Children’s & Young People’s Settings**

This one-year qualification is aimed at people considering a career in health and/or social care with adults or children.

**Specialist Skills**

- Provision of roles in health and social care and childcare
- Principles and values in health and social care and childcare
- Awareness of safeguarding, equality, inclusion and health and safety

**Employability Skills**

You will gain a range of employability skills including effective communication, team working, organisation and time management. You will develop Health & Social Care and Childcare practitioner values and attitudes.

**Progression Opportunities**

Progress to other Level 1 or 2 qualifications e.g. Level 1 or 2 Diploma in Health & Social Care or the CACHE Level 1 Caring for Children or L2 Diploma for the Early Years Practitioner, or join an Apprenticeship.
LEVEL 2
CACHÉ Diploma for the Early Years Practitioner

The aim of this qualification is to prepare learners to work with children from birth to five years, with knowledge of child development up to seven years.

Specialist Skills
- Understand how to plan to meet the needs of the developing child
- Supporting the needs of the child in preparing for school
- Supporting children’s development
- Using observation, assessment and planning
- Supporting children’s positive behaviour
- Supporting children’s play

Progression Opportunities
You can progress on to the CACHÉ Level 3 Technical Diploma in Childcare and Education (EYE) or the Level 3 Diploma for the Early Years Workforce Apprenticeship. You can also progress to Level 3 Health & Social Care.

LEVEL 3
NCFE CACHÉ Technical Certificate/Diploma in Childcare & Education (EYE)

This CACHÉ Certificate/Diploma in Childcare and Education (Early Years Educator) enables you to gain the knowledge and experience which will qualify you to work with children from birth to five years.

Specialist Skills
- Child development from conception to seven years
- Children’s health and well-being
- Providing safe environments for children
- Child health
- Play and learning
- Understanding children’s additional needs
- Observation, assessment and planning

Progression Opportunities
You could enter the workplace as a fully qualified Early Years Educator with the opportunity to progress to Early Years Teaching. Alternatively you could progress at CRC to the Foundation Degree in Early Years and Education. This programme gives you up to 168 UCAS points which will enable you to progress to Higher Education a degree of your choice including primary teaching and childhood studies.

LEVEL 4/5
ARU Foundation Degree in Early Years & Education

For further information on this Higher Education course please see pages 172-173 or visit our website www.camre.ac.uk/HE

When you study on a Hospitality & Catering course at Cambridge Regional College you open up the door to an exciting range of careers.

We have state-of-the-art training and production kitchens, equipped to the highest professional standard, and our own restaurant, run by students and open to the public.

Our courses provide great work experience opportunities with leading catering and hospitality businesses. The restaurant sector is booming, which means there is a big demand for trained catering and hospitality staff - making it a great time to join this growing industry.

Past students have gone on to win highly-coveted places on top UK hotel management training programmes and on to professional cookery and hospitality Apprenticeships in leading restaurants and hotels.

**WHY CHOOSE CRC?**

- Fantastic commercial experience through our Park Restaurant
- State of the art industry-standard kitchens
- Excellent links with top employers & restaurants
- Masterclasses from guest chefs & hoteliers
- Chance to compete in regional & national competitions
- Great employment prospects at top restaurants

**WHAT WE OFFER AT CRC**

**Level 1**
- Introduction to the Hospitality & Catering Industry
- Professional Cookery

**Level 2**
- Technical in Professional Cookery
- Intermediate Apprenticeships for Commis Chef and Production Chef and Intermediate Apprenticeships for Hospitality Team Member

**Level 3**
- Technical in Professional Cookery
- Advanced Apprenticeships for Chef de Partie, Senior Production Chef and Hospitality Supervisor

**WHY CHOOSE CATERING & HOSPITALITY?**

When you study on a Hospitality & Catering course at Cambridge Regional College you open up the door to an exciting range of careers.

We have state-of-the-art training and production kitchens, equipped to the highest professional standard, and our own restaurant, run by students and open to the public.

This course is ideal if you are looking for a career in the hospitality industry, you will learn, develop and practice the skills required for employment in the hospitality sector including cookery, food service and the industry as a whole.

**Specialist Skills**
- Customer service
- Serving food and drink
- Healthy eating
- Using kitchen equipment
- Basic food preparation

**Progression Opportunities**
You can progress into employment or on to the Level 1 Diploma in Professional Cookery.
CATERING & HOSPITALITY

APPRENTICESHIPS
Want to earn while you learn?
An Apprenticeship could be for you.
We offer:
• Level 2: Commis Chef
• Level 3: Chef de Partie
• Level 2/3: Production Chef and Senior Production Chef
• Level 2/3: Hospitality with various specialist pathways (including barista, housekeeping and event management – Team member & Supervisor)

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 24-31 or www.camre.ac.uk/apprenticeships

LEVEL 2
Technical in Professional Cookery
This one-year programme has been designed for those who want to work, or currently work, as chefs in the catering industry, and who want to develop their employment skills.

Specialist Skills
• Food safety
• Healthy foods and special diets
• Use of kitchen equipment
• Personal workplace skills
• Preparing and cooking foods
• Understanding menus
• Food and beverage preparation and service
• Health and safety

Progression Opportunities
Progress to our Level 3 Catering course or other Level 3 courses in the college. You can also apply for an Apprenticeship.

LEVEL 3
Technical in Professional Cookery
This one-year programme has been designed to prepare you for employment in first class restaurants with international reputations for gastronomic excellence. You will learn a range of advanced cookery skills and techniques and we aim to equip you with artistic and creative cookery skills to haute cuisine standards.

Specialist Skills
• Food safety
• Health and safety
• Supervisory skills
• Gastronomy and food culture
• Sourcing produce
• Food product development
• Production of high quality restaurant food

Progression Opportunities
Apply for employment as a professional chef in a wide range of high quality national and international restaurants throughout the catering industry.

“There are great work experience opportunities at CRC. I was part of a group of students who cooked at Royal Ascot – and I had the amazing experience of working alongside Raymond Blanc in the Panoramic Restaurant. It was fantastic. I was also part of the CRC team which came second in Passion to Inspire – a great competition which gives students the chance to meet leading chefs.”

Sam Gooby, 18
Level 3 Catering student

www.camre.ac.uk
Do you want to work at the cutting edge of software and web development? We offer a range of programmes giving you the skills to use programming languages and develop your creative skills. Desktop or network support engineers need to develop logical, troubleshooting skills as well as having a good knowledge of computer and networking systems.

Underpinning these very specific skills and wider knowledge, you will need a raft of ‘soft skills’ – including communication, organisation and team work, plus a ‘can do’ attitude to progress in the IT industry. Our computing courses will help you enhance all of these skills.

Past students have gone on to study computer science, games development, ICT, infotech management, accounting and finance and computer networks at universities across the country, including Newcastle, Lancaster and Westminster. Many choose to go straight into work in the local IT sector or into an Apprenticeship to further their qualifications.

WHY CHOOSE CRC?

• Great work experience opportunities to boost job prospects
• Emphasis on up-to-date and relevant industry knowledge and employability skills
• Excellent progression to employment, Apprenticeships or Higher Education
• Valuable communication and interpersonal skills
• Cambridgeshire is a thriving hub for the high-tech industry

WHAT WE OFFER AT CRC

Level 1
• Vocational Studies

Level 2
• Information & Creative Technology

Level 3
• Computing
• ICT Systems & Principles
• Advanced Apprenticeships in Infrastructure Technician and Digital Marketer

Level 4
• Higher Level Apprenticeships: Software Developer and Cyber Security Technologist

EARN UP TO £35k
AS AN IT SUPPORT TECHNICIAN

EARN UP TO £70k
AS A SOFTWARE DEVELOPER

www.camre.ac.uk
LEVEL 1
Vocational Studies
This one-year programme is a springboard towards a career in the IT industry and will develop your knowledge, skills and confidence as well as understanding of basic hardware maintenance, troubleshooting, software and games development.

Specialist Skills
- Microsoft Word
- Spreadsheets
- PowerPoint
- Desktop publishing
- Email
- Basic programming using Scratch
- Hardware assembly
- Basic web page design

Progression Opportunities
Progression to our Level 2 Extended Certificate/Diploma (Merit required) or Apprenticeship or employment in a junior role.

LEVEL 2
Information & Creative Technology
This programme will give you a sound insight into the rapidly changing world of IT and offers you the chance to specialise in either IT software or IT hardware. Develop your skills and knowledge in programming, web development and animation through the software route, or follow the technical route if you have a keen interest in the inner workings of computer systems and networks.

Specialist Skills
- Installation and configuration of software and hardware
- Programming skills
- Web development
- Building mobile apps
- New technology
- Real life projects/simulated scenarios
- Games development

Progression Opportunities
Progression to our Level 3 Computing courses, an Apprenticeship or employment as an IT support technician, junior web developer or helpdesk technician.
LEVEL 3
Computing

This two year programme will give you an excellent grounding in the rapidly changing computing industry and is an ideal progression route for those wanting to specialise in software programming, coding, hardware and networking. You will develop a sound understanding of the expectations, opportunities and roles in the industry, and how computing technologies affect all aspects of our daily lives including social, employment and global commerce.

Specialist Skills
- Live projects/simulated scenarios
- Hardware
- Programming
- Mobile app design
- Database design & management
- Project management including testing & networks
- Network security

Progression Opportunities
Excellent progression to Higher Education courses e.g. BA/BSc(Hons)/FdA/HNC/HND Games Development, Computer Science, Animation or into an Apprenticeship or employment.

ICT Systems & Principles

This fast-track one-year programme combines hardware, software and networking, which you can customise to meet your own interests and employment aspirations. This hands-on course will give you a high level of practical skills and is ideal for progression straight into employment.

Specialist Skills
- Web development & software testing
- Designing & maintaining network software components
- Network management & security
- Testing ICT systems
- Maintaining ICT equipment & systems
- Installing, configuring & upgrading ICT software
- Customer Support
- Technologies of the Internet

Progression Opportunities
Progress straight into employment as an IT trouble shooter or technician. This course carries UCAS points to help you progress to university.

APPRENTICESHIPS

Want to earn while you learn? An Apprenticeship could be for you.

We offer:

At CRC we have some of the best construction facilities in the region with professionally-qualified and experienced tutors to provide you with the knowledge and skills to progress your future within this fast-evolving sector.

There are many different careers within the construction sector, from architecture and civil and structural engineering, to building services and surveying. The construction sector is booming again and there is great demand for skilled workers in all fields, including carpenters, bricklayers, plumbers and project managers.

Past students have gone on to study architectural technology, project management, quantity surveying and building surveying at universities including ARU, Westminster, Plymouth and Leeds. Students can also go straight into work in the busy construction sector or choose to become an apprentice, for instance on a Civil Engineering Apprenticeship.

**WHY CHOOSE CRC?**

- Fantastic specialist construction workshops
- Great track record of moving full-time students into Apprenticeships
- Close links with employers for great job opportunities
- Training in the latest sustainable methods of construction
- Teaching by experienced industry specialists

**WHAT WE OFFER AT CRC**

**Level 1**
- Carpentry & Joinery
- Bricklaying
- Painting & Decorating
- Construction
- Electrical Installations
- Plumbing

**Level 2**
- Site Carpentry
- Bricklaying
- Painting & Decorating
- Electrical Installations
- Plumbing Studies
- Property Maintenance
- Intermediate Apprenticeships in Brickwork, Property Maintenance Operative, Building Services Engineer, Fabrication & Welding, Supply Chain/Warehousing, Plumbing and Carpentry

**Level 3**
- Construction and the Built Environment
- Extended Diploma in Construction
- Advanced Apprenticeships in Brickwork, Civil Engineering, Electrical Installation, Site Carpentry, Gas Engineer Operative and Building Services Engineering Craftsperson

**Level 4/5**
- ARU Foundation Degree in Construction Management
- ARU Foundation Degree in Architectural Technology
- Level 3/4 Higher National Diploma Interior Design

WHY CHOOSE CONSTRUCTION?

EARN UP TO £40k AS A PLUMBER

EARN UP TO £80k AS A GAS ENGINEER

Apply now! See pages 36-37 or call us on 01223 226315
This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a site carpenter or bench joiner.

**Specialist Skills**
- Maintain and use carpentry and joinery hand tools
- Prepare and use portable power tools
- Produce woodworking joints
- Health, safety and welfare in the construction industry
- Construction technology

**Progression Opportunities**
Progress to Level 2 Diploma in Bricklaying, further training with an Apprenticeship or employment.

**Painting & Decorating**

This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a painter and decorator.

**Specialist Skills**
- Prepare surfaces and apply paint and foundation paper
- Produce standard decorative finishes
- Erect and dismantle access equipment and working platforms
- Health, safety and welfare in the construction industry
- Construction technology

**Progression Opportunities**
Progress to Level 2 Diploma in Site Carpentry or further training with an Apprenticeship or employment.

**Bricklaying**

This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a bricklayer.

**Specialist Skills**
- Construct block, brick and cavity walling
**Construction**

This one-year introduction to the construction industry will develop your practical skills and knowledge in a number of construction craft areas.

**Specialist Skills**
- Practical skills in joinery, bricklaying, painting and decorating
- Construction of basic masonry and timber structures
- Prepare and apply paint for surface finishes
- Safety in the construction industry

**Progression Opportunities**
Progress to a Level 1 Craft programme in your chosen trade or progression to Level 2 Diploma in Property Maintenance from September 2020. You can go onto further training with an Apprenticeship or employment.

---

**Plumbing**

This one-year programme will give you the basic skills, knowledge and understanding in Plumbing.

**Specialist Skills**
- Working safety
- Domestic plumbing systems
- Pipework jointing techniques
- Communicating technical information
- Forming and assembling pipework systems

**Progression Opportunities**
Progress to the Level 2 Plumbing pathway or further training with an Apprenticeship or employment.

---

**Electrical Installations**

This one-year programme will give you the skills, knowledge and understanding needed to progress to a full-time Level 2 pathway in Electrical Installations or an Apprenticeship.

**Specialist Skills**
- Working safety
- Domestic electrical systems
- Electrical circuits
- Communicating technical information

**Progression Opportunities**
Progress to the Level 2 Electrical pathway or further training with an Apprenticeship or employment.

---

**Property Maintenance**

This programme has been designed to give you the enhanced skills and knowledge you need to work in the property maintenance industry. With teaching and instruction from specialist staff you will gain knowledge and learn a wide variety of practical skills in this area. Applicants for this course should have a Level 1 Construction qualification.

**Specialist Skills**
- Health, safety and welfare in construction
- Principles of building construction, information and communication
- Carry out small-scale building repairs
- Carry out small-scale painting and decorating repairs
- Carry out small-scale plastering repairs
- Carry out small-scale plumbing repairs
- Carry out carpentry repairs

**Progression Opportunities**
Progress into further training at the College or gain an Apprenticeship.

---

**PLANE 2**

**Site Carpentry**

This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a site carpenter.

**Specialist Skills**
- Structural carcassing operations
- First and second fixings
- Maintain non-structural carpentry works
- Understanding construction drawings
- Construction technology

**Progression Opportunities**
Progress on to further training with the college, an Apprenticeship or employment.

---

**Bricklaying**

This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a bricklayer.

**Specialist Skills**
- Constructing solid walling incorporating isolated and attached piers
- Constructing cavity walling
- Construction technology
- Forming masonry structures
- Understanding construction drawings and documents

**Progression Opportunities**
Progress on to further training at the college, an Apprenticeship or employment.

---
**Plumbing Studies**

This one-year programme develops your in-depth skills and knowledge to prepare for a Plumbing Apprenticeship or work.

**Specialist Skills**
- Cold and hot water systems
- Central heating systems
- Scientific principles for domestic, industrial and commercial plumbing
- Health and safety in building services

**Progression Opportunities**
Progress on to further training, an Apprenticeship or employment within the plumbing industry.

---

**Painting & Decorating**

This one-year programme will allow you to enter the construction industry by gaining the skills and underpinning knowledge required to be a painter and decorator.

**Specialist Skills**
- Preparation of surfaces and applying paint systems
- Using spray equipment to apply paint systems
- Specialist decorative finishes
- Understanding construction information, quantities, drawings
- Construction technology

**Progression Opportunities**
Progress on to further training with the college, an Apprenticeship or employment.

---

**Electrical Installations**

This one-year programme develops your in-depth skills and knowledge to prepare for an Apprenticeship or work.

**Specialist Skills**
- Installation of wiring systems and enclosures
- Communication with others within building services engineering
- Principles of electrical science
- Health and safety in the construction industry
- Electrical installations technology

**Progression Opportunities**
Progress to an Apprenticeship or employment within the electrical industry.

---

**LEVEL 3 Construction and the Built Environment**

This programme provides a variety of diverse and varied units, enabling students to have a greater and well-informed understanding of the construction industry. This is a two-year part-time course.

**Specialist Skills**
- Health, Safety & Welfare
- Sustainable Construction
- Mathematics in Construction
- Science & Materials in Construction
- Construction Technology & Design
- Building Technology
- Project Management
- CAD
- Measuring, Tendering, Estimating
- Building Surveying
- Property Valuation
- Conversion and Adaptation

**Progression Opportunities**
This course provides the basis for progression on to Higher Education courses such as HND/HNC and Foundation Degree studied at CRC, and University Degree courses.

---

**180 Credit Level 3 Extended Construction**

This programme provides a variety of diverse and varied units, enabling students to have a well-informed understanding of the professional and technical areas and routes to employment within the construction industry. This is a two year full-time course.

**Specialist Skills**
- The structure of the construction industry
- How buildings are designed, estimated and constructed
- How health and safety and site welfare affect the construction industry
- How sustainability in the construction Industry is embedded with building technology
- The use of Science and mathematics in construction
- The use of CADD and graphical detailing to create structural designs
- A variety of project management methods and techniques
- Building regulation, property valuation and the conversion of structures

**Progression Opportunities**
This course carries UCAS points which enables progression to University or Cambridge Regional College Higher Education Programmes. Level 4 Higher National Certificate, Foundation Degree (Level 5), employment within the construction industry at trainee management level, including the higher apprenticeship levels (level 5) where further qualifications may be gained at level 5 whilst being employed.
LEVEL 4/5
ARU Foundation Degree in Construction Management
ARU Foundation Degree in Architectural Technology
240 Credit Level 3/4 Higher National Diploma Interior Design
For further information on these Higher Education courses please see pages 172-173 or visit our website www.camre.ac.uk/HE

Engineering is a hugely exciting field with many different study and career options. Our excellent engineering workshops and laboratories enable you to develop the right skills and knowledge to progress to employment or Higher Education. Our close relationship with the industry ensures that we are in step with the latest technological advances, giving you the very best training available.

We have invested heavily in our engineering facilities with state-of-the-art machinery, including 3D printers, robotics, manufacturing workshops, specialist welding and fabrication workshops, CADCAM, pneumatics and hydraulics as well as a materials testing laboratory. The college has been awarded EngTech status by the Institution of Mechanical Engineering.

Past students have gone on to leading universities such as Leeds, Sheffield, Loughborough and Cardiff, to study a wide range of subjects, including aerospace technology, product design, automotive and mechanical engineering. Students are also well equipped to go straight into the workplace or into an engineering Apprenticeship.

WHY CHOOSE CRC?

- Courses matched to industry standards to meet skills needs
- Great progression opportunities to university and work
- Strong links with employers
- Excellent Apprenticeship programmes
- Fantastic state-of-the-art engineering facilities

LEVEL 2
- Engineering Technologies
- Intermediate Apprenticeships in Fabrication & Welding

LEVEL 3
- Engineering & Technology
- Engineering

LEVEL 4/5
- Level 4/5 HNC/HND Diploma in General Engineering
- Level 4/5 HNC/HND Diploma in Electrical & Electronic Engineering
- Higher Apprenticeships in Electrical and Mechanical Engineering

WHY CHOOSE ENGINEERING?

EARN UP TO £40k AS A MECHANICAL ENGINEER

EARN UP TO £65k AS AN ELECTRONICS ENGINEER

Apply now! See pages 36-37 or call us on 01223 226315
LEVEL 2
Engineering Technologies

This one-year programme will develop your practical skills and build related theory knowledge within engineering and is recognised as the initial training within all Engineering Apprenticeship frameworks. The course is broad in content and increases awareness of what potential engineers will face within the trade.

Specialist Skills

- Engineering health and safety
- Engineering techniques
- Engineering principles
- Producing mechanical engineering drawings using a CAD system
- Wiring and testing electrical equipment and circuits
- Assembling and testing electronic circuits
- General machining, fitting and assembly
- General welding applications

Progression Opportunities

Engineering Apprenticeship routes may be available or alternatively you can progress to our EAL Level 3 Diploma in Engineering & Technology.

LEVEL 3
Engineering Technologies

This one-year programme focuses on the use of technology in the production, maintenance and repair of all engineered items.

Specialist Skills

- Engineering and environmental health and safety
- Engineering organisational efficiency and improvement
- Computer Aided Design (CAD) techniques
- Digital electronics
- Computer Numerical Control (CNC)
- Programming/machining
- Programmable logic controllers
- Welding practices
- Advance turning
- Advanced milling

Progression Opportunities

This course may lead to an Advanced Apprenticeship. You will normally continue to employment as a skilled engineer or look to take further academic studies to prepare you for university.
Engineering

This two-year programme gives a broad experience and introduction to the mechanical/electrical and electronics disciplines in the fascinating world of engineering. The theoretical subjects are related to practical applications and experiments.

Specialist Skills
- Health and Safety
- Mathematics for engineering technicians
- Electrical and electronic principles
- Mechanical principles and applications
- Properties and applications of materials
- Applications of mechanical systems
- Application of Computer Numerical Control
- Further mathematics
- Use of electro, pneumatic & hydraulic systems and devices
- Principles and applications of electronics
- Selection and use of programmable logic controllers
- Communication skills for engineering technicians
- Engineering project
- Further mechanical principles
- Principles and applications of fluid mechanics

Progression Opportunities
You can progress to an Advanced Apprenticeship, employment as a technician engineer or go onto one of our Higher National courses or university.

LEVEL 4/5
Level 4/5 HNC/HND Diploma in General Engineering
Level 4/5 HNC/HND Diploma in Electrical & Electronic Engineering

For further information on this Higher Education course please see pages 172-173 or visit our website www.cam.ac.uk/HE

APPRENTICESHIPS
Want to earn while you learn? An Apprenticeship could be for you.
We offer:
- Level 3: Machinist Technician
- Level 3: Maintenance and Operations Engineering Technician
- Level 3: Product Design & Development Technician
- Level 3: Technical Support Technician
- Level 3: Toolmaker & Die Maintenance Technician
- Level 4: Electrical & Electronic Engineering
- Level 4: Mechanical Engineering

“This Navy really likes people who have trained in a trade, so studying engineering at CRC was a big advantage. I enjoyed my time at CRC and the course definitely helped me get the job in the Navy.”

Will Thoday – Royal Navy Submariner
Former Engineering student
Hairdressing is a popular career which has many great prospects. You can work in a salon, at home, abroad or even in the film and TV industry. You may even decide to open your own salon, and we can help you achieve this through one of our management pathways. Students also go on to Apprenticeships or into work in leading salons.

All our courses are delivered in our beautiful training salons and students compete in industry skills competitions to a very high standard. We also have a luxurious commercial hair salon, where you will be able to gain valuable work experience working with paying clients.

Once qualified, many hairdressers continue to develop their skills in the many specialist areas we offer.

**WHY CHOOSE CRC?**

- Superbly-equipped training salons and teaching rooms
- Fantastic commercial work experience in our state-of-the-art hair salons
- Opportunity to represent the college in national competitions
- Highly qualified teaching staff

**GREAT CAREERS START HERE**

“The best thing is that working in a salon gives me real life experience. It gets you used to working life, you learn how to communicate with customers and it builds up your confidence in your ability. Earning while learning is really good too. In college we learn the skills but in the salon we put them into practice.”

Libby Franklin
Studio 88 Hairdressing Apprentice

NEW HEALTH & CARE ACADEMY
We have developed an exciting partnership with Cambridge University Hospitals which sees us launch a new Health and Care Academy. Students studying at CRC will have unique opportunities, including:

- Opportunity to apply for Work Shadowing and Industry Placements
- Guest speakers from CUH
- Tours and talks at CUH
- The chance for completing students to have mock interviews and apply for places at CUH. This will ensure that our students are trained to the highest standards and are career ready.

WHY CHOOSE HEALTH & SOCIAL CARE?
Our specialist Care and Health programmes from Level 1 to Level 5 will give you real and practical experience working with adults and children and can lead to a wide range of careers in health and care.

Careers in Health and Social Care are thriving and the Cambridgeshire area has a growing need for well-qualified staff in hospitals and care homes.

Our Level 3 Health and Social Care students benefit from direct work experience at internationally-renowned Addenbrooke’s Hospital as part of the partnership with Cambridge University Hospitals.

Past students have gone on to study for a degree in social work, adult and children’s nursing and occupational therapy at universities including ARU, Birmingham City and Cardiff. Apprenticeships in the health service are also a popular choice.

WHAT WE OFFER AT CRC

Level 1
- CACHE Diploma in Introduction to Health, Social Care and Children’s & Young People’s Settings

Level 2
- Health & Social Care
- Intermediate Apprenticeships - Adult Care Worker

Level 3
- Health & Social Care
- Advanced Apprenticeships - Lead Adult Care Worker

Level 4/5
- L4 HNC in Social and Community Work
- Apprenticeships in Adult Care

WHY CHOOSE CRC?
- The Health and Care Academy with Cambridge university hospitals providing unique opportunities
- Substantial work experience through industry placements
- Highly-qualified and professionally experienced tutors
- Guest speakers offer introductions to career pathways in the sector

• UAL Diploma/Extended Diploma in Creative Media Production (Games Development)
• UAL Diploma/Extended Diploma in Creative Media (Media)
LEVEL 1
UAL Award/Diploma in Creative Media

The core of this study programme consists of English, maths and IT areas and the development of your study skills and your confidence. You will experience a "taster" of media related subject areas as well as build your employability skills and complete 30 hours of work experience.

Specialist Skills
- Extensive research skills
- Digital video production
- Games development
- Digital photography
- Audio and print production
- Develop appropriate outcomes for a variety of media audiences

Progression Opportunities
Progress to a Level 2 course e.g. Level 2 UAL Diploma in Creative Media Production.

LEVEL 2
UAL Award/Diploma in Creative Media

This challenging one-year programme provides the knowledge and skills to plan and produce media work across a range of disciplines including video, print, games, digital publication, photography and audio.

Specialist Skills
- Digital video/audio production & editing
- Print production techniques
- Image manipulation
- Photography practice
- Games design and interactive design
- Pre-production planning
- Project management
- Research skills

Progression Opportunities
Progress to a Extended Diploma Level 3 Media course such as Level 3 UAL Diploma in Creative Media.
UAL Diploma/Extended Diploma in Creative Media Production (Games Development)

This two-year qualification is not just about making games but about making your first steps into the games industry. You’ll undertake design challenges, learn about art, sound, programming, design, marketing and networking in order to form yourself fully as a games developer. You’ll connect with the industry through a range of industry visits, live briefs and trips to museums, galleries, expos and more. You will contribute to the design, production and release of original games through our own games company, Rizing Games.

Specialist Skills
- Games Design
- Game Theory
- Digital Graphics
- Audio Design
- Programming
- Unity Engine
- Project Management
- Industry Networking

Progression Opportunities
Excellent progression opportunities to University for BA/BSc(Hons)/FdA or HNC/HND.

UAL Diploma/Extended Diploma in Creative Media (Media)

This two-year programme provides an in-depth introduction to all the creative, theoretical and technical skills of moving image production. It is not only about making films but understanding how the wider film industry works and how it relates to other areas, e.g. animation, music, games, arts, sports, journalism and documentary. Industry links, work experience and live briefs are a key aspect as is working for our film and TV production company, Arclight.

Specialist Skills
- Scriptwriting
- Pre-production planning
- Video editing
- Film and television studies
- Setting up and operating a TV studio
- Broadcasting and publication presentation skills
- Music video and promo production
- Factual film, single camera drama and documentary production
- Research techniques
- Legal and ethical considerations and regulations
- Stop frame animation

Progression Opportunities
Excellent progression opportunities to university for BA/BSc(Hons)/FdA or HNC/HND or straight into employment.

“I studied at CRC for its wide range of unique courses. The teaching staff were amazing and the opportunities that you are given can’t be found elsewhere. It has helped me release my own games on the market and develop my specialist skills further. Being part of such a unique course and such a great college has helped me pursue my career in teaching - and CRC was the place to do it.”

Michael Killick – Games Development Lecturer at CRC
Former Games Development student
Cambridge Regional College is one of only a few colleges in the country to offer full-time courses in Media Make-up. LEVEL 1

 Introductory Diploma for the Motor Industry

Do you have passion or interest in cars? Fancy learning how to repair and maintain them? This one-year programme is a great starting point to introduce the skills and knowledge you'll need to work in the automotive repair industry. Our experienced tutors will help you to become familiar with vehicle engines, wheels and tyres, braking systems, transmission and other key elements to ensure you can take the next step into a career in the motor industry.

Specialist Skills

• Petrol and diesel engines
• Transmissions systems
• Health and safety
• Auto electrics
• Wheels and tyres
• Steering, suspension and braking systems
• Employability skills
• Functional skills or GCSE in English and maths depending on previous qualifications

Progression Opportunities

Progression to the Level 2 full-time course or a Level 2 Apprenticeship. This course will also give you an excellent range of knowledge which may help you with full-time employment opportunities within the motor industry from service reception to vehicle parts and sales.

LEVEL 2

Diploma in Motor Vehicle Maintenance & Repair

This one-year programme is ideal if you want to gain a ‘hands-on’ job in the motor vehicle industry. You will develop your knowledge of vehicle systems and repair procedures gained in your Level 1 qualification.

Specialist Skills

• Removing and replacing light vehicle chassis units and components
• Vehicle fuel, ignition, air and exhaust system units and components
• Vehicle inspection and maintenance
• Removing and replacing vehicle engine units and components
• Health and safety
• Materials, fabrication, tools and measuring devices
• Vehicle engine mechanical, lubrication and cooling system units and components
• Removing and replacing vehicle electrical units and components
• Vehicle transmission and driveline units and components

Progression Opportunities

Progress to Level 3 Diploma in Vehicle Maintenance or an Apprenticeship.

www.camre.ac.uk
A career within the music industries requires talent and professionalism but most importantly passion! If composing, creating, recording and mixing music is your passion, then read on.

Our music department has fantastic facilities including extensive recording studios, Mac suites, fully-equipped rehearsal rooms with kit and backline, industry-standard live sound rig and an array of music tech equipment for both live and studio applications.

Our professional tutors have excellent links with the music industry allowing you to develop your skills to high standards, play gigs, attend workshops with guest professionals and visit external venues.

When you have created your music we help you with releasing, marketing and distributing your music through our own record label, Rogue.

Past students have gone on to universities such as Sheffield Hallam, Westminster, ACM, Kingston and Hull to study a wide range of subjects, including music technology, music journalism, creative musicianship, audio, music and TV production.

Rogue is an exciting and vibrant label that offers music technology students insight into running a recording label and all the trials, tribulations and exhilaration that comes as part of that process. It is a fantastic way of drawing upon the promotional, organisational, production and performance talent of music students, and enabling them to work with students across the college. Music students have collaborated directly with Rizing Games, where tech students produced all the music and sound design for their newly developed projects - shown in LA at the E3 games expo. We have had many releases, a strong web-presence, Radio 1Xtra airplay and further airplay internationally.

Our artist roster represents not only the talent here at the college, but also the local area and internationally too.

WHY CHOOSE MUSIC?

WHY CHOOSE CRC?

WHAT WE OFFER AT CRC

www.camre.ac.uk

www.camre.ac.uk
LEVEL 2
UAL Award/Diploma in Music Performance & Production

Delivered by working musicians and producers, and supported by our own record label, Rogue, this challenging one-year course focuses on introducing the relevant skills, knowledge and experience necessary to succeed as a producer and/or performer in the music industry today.

We have outstanding performance and production facilities and offer great opportunities to release music on our record label, Rogue. Working with our industry-specialist teaching staff you will reach professional standards of performance and musicianship, studio recording and production and live sound engineering.

Specialist Skills
Working both independently and collaboratively with your peers, you will develop the appropriate fundamental knowledge and techniques required to:
• Run studio recording sessions and mix these to a professional standard
• Rehearse, write and perform collaboratively at gigs in college and externally
• Learn to write songs in a range of styles
• Compose, arrange and mix with Logic Pro X
• Understand the contemporary music industry and the job opportunities available
• Market and promote releases and live events

Progression Opportunities
Excellent progression opportunities to the Level 3 UAL Extended Diploma in Music Performance and Production Apprenticeships within the wider commercial/creative based industries or employment. Most performers are self-employed by nature and success is reliant on individual performance skills.
LEVEL 3

UAL Diploma/Extended Diploma in Music Performance & Production

This is a two year course consisting of two one-year programmes. Delivered by working musicians, producers, and supported by our own record label, Rogue, this challenging course focuses on building the relevant skills, knowledge and experience necessary to succeed as a producer and/or performer in the music industry today. You will be able to develop the specialist skills integral to your chosen pathway – either Production or Performance.

Music Performance Specialist Skills:
- Compose for a range of applications, genres and industry briefs
- Learn the musical characteristics of a range of genres from rock to jazz
- Learn to write songs in a range of styles
- Perform in a range of locations and contexts
- Understand and apply music theory in compositions and arrangements and use Sibelius software
- Learn to use a range of technology (including Logic Pro X) in composition and performance
- Devise and execute marketing campaigns for large scale performance projects
- Develop approaches to contrasting performance situations – i.e. studio and live

Progression Opportunities
Progression to Higher Education for BA/BSc (Hons)/FdA/HNC or HND, or straight into employment or an Apprenticeship to develop your skills and experiences within the wider commercial/creative industries.

Music Production Specialist Skills:
- Develop studio production techniques for commercial releases on Rogue
- Understand the different forms of synthesis and advanced sampling and audio manipulation techniques used in sound creation
- Compose and create sound design for commercial game releases, film, social media and TV/radio broadcast
- Devise and execute marketing campaigns for large scale production projects
- Utilise technologies in performance – in conjunction with other art forms

“CRC has enabled me to take my music ideas and push them further. Tutors are fantastic, engaging and extremely helpful. We have studied a whole range of genres that I would never have normally listened to like reggae, jazz, learnt how to set up studios and away from the course we have played music together. It is enjoyable being around a group of talented musicians. We’ve learnt a lot from each other also.”

Oscar Copeland
Level 3 Extended Diploma in Music Performance & Production
Going to Kingston University to study Music Technology
Our Performing Arts courses give you the practical skills and knowledge to succeed in this exciting and vibrant industry. The college has industry-standard equipment and facilities which include a theatre equipped with full lighting rig and sound system and rehearsal studios.

All programmes are delivered by experienced academic and industry trained staff.

All of our Performing Arts students benefit from theatre visits, backstage tours, attending workshops and talks with guest professionals, and performing both scripted and devised shows in the college theatre.

**WHAT WE OFFER AT CRC**

- **Level 2**
  - UAL Award/Diploma in Performing & Production Arts
- **Level 3**
  - UAL Diploma/Extended Diploma in Performing & Production Arts (Acting)

**WHY CHOOSE CRC?**

- Superb performance facilities including college theatre
- Opportunities to perform to the public to showcase productions
- Opportunities to participate in workshops with guest professionals
- Excellent progression to Higher Education, both university and Drama College

**WHY CHOOSE PERFORMING ARTS?**

EARN UP TO £20k AS A PERFORMING ARTS TECHNICIAN

EARN UP TO £38k AS AN ACTIVITY PRESENTER

Apply now! See pages 36-37 or call us on 01223 226315

www.camre.ac.uk

www.camre.ac.uk
UAL Award/Diploma in Performing & Production Arts

This one-year programme develops aspiring performers’ understanding of skills and opportunities within the Performing Arts industry. Students will collaborate to form a professional standard performance company and will create a number of practical performances that stretch and develop existing knowledge of Performing Arts. The course grows confidence and develops and consolidate theoretical and practical understanding of one the most employable industries.

Specialist Skills

- Develop skills within acting, dance and singing
- Practical and theoretical understanding around the Performing Arts industry
- Communication and collaboration
- Imagination and creativity towards devised and set works
- Understand your role and responsibility in a group performance
- Create and/or perform work independently as an ensemble
- Self-reliance and self-motivation

Progression Opportunities

The qualification aims to consolidate and develop existing understanding from previous performing arts qualifications or experience. Level 2 aims to prepare for progression onto the Level 3 Performance and Production Arts by acquiring the requisite skills required by UAL awarding body.
LEVEL 3

UAL Diploma/Extended Diploma in Performing & Production Arts (Acting)

The Level 3 Diploma and Extended Diploma in Performing & Production Arts is a two year programme and is designed to provide students with the knowledge, skills and understanding necessary to access and progress to degree level study or employment in the performing arts.

They provide an opportunity for those who have an interest in the performing arts to explore, develop and test their creativity within a qualification structure which is both stimulating and demanding.

Specialist Skills

- Develop performing techniques
- Develop performance discipline in both a rehearsal setting and in live performances to an invited audience
- Devise and perform own plays
- Perform in scripted plays
- Understand your role and responsibility in a group performance
- Write and perform your own monologues
- Learn and perform audition speeches

Progression Opportunities

This two-year programme provides you with the knowledge and skills to access and progress to higher education, degree level study or employment in the performing arts.

“All of our teachers are industry professionals and so they know first-hand what it’s like to be working in the industry and can give us those tips. I’ve just got a scholarship for Bodywork in Cambridge.”

Daniel Ferguson

At CRC, we offer full-time, Apprenticeships and day release courses in Science as well as our more advanced courses for people aged 19 or over, including our popular Access to Science programme.

The focus of our science programmes at CRC is to equip individuals with the knowledge and skills needed to work in science-based industries or to enable progression to an undergraduate degree or further professional qualifications in science-related areas.

Past students have gone on to universities including Anglia Ruskin, Bath, Warwick, Nottingham, Lancaster, UEA, Southampton and Glasgow to study a wide range of subjects, from biochemistry and environmental science, to nursing and archaeology. Apprenticeships in the health and bioscience industries are a popular career option and students also go straight into work in industries in the sectors.

WHY CHOOSE CRC?

- Award-winning staff
- Excellent progression to employment, Apprenticeships and Higher Education
- Strong links with industry employers
- High quality work experience opportunities
- Stand-alone project work

WHY CHOOSE SCIENCE?

At CRC, we offer full-time, Apprenticeships and day release courses in Science as well as our more advanced courses for people aged 19 or over, including our popular Access to Science programme.

The focus of our science programmes at CRC is to equip individuals with the knowledge and skills needed to work in science-based industries or to enable progression to an undergraduate degree or further professional qualifications in science-related areas.

Past students have gone on to universities including Anglia Ruskin, Bath, Warwick, Nottingham, Lancaster, UEA, Southampton and Glasgow to study a wide range of subjects, from biochemistry and environmental science, to nursing and archaeology. CRC AWARDED ENTHUSE STEM FE COLLEGE OF THE YEAR 2017

Apply now! See pages 36-37 or call us on 01223 226315

www.camre.ac.uk
LEVEL 3
Applied Science

This two-year academic course gives you the chance of studying a wide range of units. Mandatory units (with external assessments/exams) include Principles & Applications of Science, Science Investigation Skills and an Investigative Project. Optional units might include Applications of Organic & Inorganic Chemistry, Microbiology & Microbiological Techniques and Genetics & Genetic Engineering. You should have a strong interest in science, be committed to the level of work required and have good time management skills. If you prefer, and are currently employed in the science industry, you can study for a National Diploma in Science over two years on a part-time basis.

Progression Opportunities
On successful completion you may progress to a wide range of Higher Education courses at university or the HNC Diploma for Biological Sciences at the college.

Forensic and Criminal Investigation

This two-year academic course gives you the chance of studying a mixture of biology, chemistry and maths but also bringing in elements of forensic science. This course will enable you to develop practical science skills but also the ability to plan, research, problem solve and communicate findings.

You will study a mixture of exams, examined tasks and coursework. Mandatory units include Principles & Applications of Science, Science Investigation Skills, Applications of Criminology and Applications of Criminal and Forensic Psychology. Optional units might include Microbiology & Microbiological Techniques, Practical Chemical Analysis, Forensic Photography and Physiology of Human Body Systems.

You should have a strong interest in applied science in particular practical skills in chemistry and forensics, be committed to the level of work required and have good time management skills. Some of your classes will be taken with the Applied Science students as there are shared units.
APPRENTICESHIPS

Want to earn while you learn? An Apprenticeship could be for you.

We offer:
- Level 3: Laboratory Technician
- Level 5: Technician Scientist

Apprenticeships can start at various dates across the year. You can sign up to our Talent Bank to help you find your perfect Apprenticeship and get our alerts to see the latest opportunities in your area. For more details about Apprenticeships, visit pages 24-31 or www.camre.ac.uk/apprenticeships

Progression Opportunities
On successful completion you may progress to a wide range of degree courses at university such as Forensic Science and many biology and chemistry related courses. You could also progress onto the BTEC Level 4/Level 5 HNC/HND Diploma in Policing Studies offered at CRC.

Advanced Apprenticeship for Laboratory & Science Technicians

An Apprenticeship for Laboratory and Science Technicians will give you the skills and experience needed to work in an education, industrial, medicinal or research laboratory. Laboratory technicians support scientists and help carry out tests, research and investigations. During the Advanced Apprenticeship, you’ll be able to specialise in a field of your interest. Whether you start on a Level 3 Apprenticeship is determined by your role in the workplace and any previous qualifications. For more information about Apprenticeships, please turn to pages 10-11.

Progression Opportunities
On successful completion you may progress onto our Higher Level Apprenticeship/Higher National Certificate in Biological Sciences for Industry.

FOR 19+ YEAR OLDS

Access to Higher Education - Science

Study any three subjects from Biology, Physics, Chemistry and Mathematics. This will allow progression onto a wide variety of interesting degree courses such as environmental, forensic and sports science, biomedical science, physiotherapy, dietetics/nutrition, physics and physical chemistry. GCSE Maths and English at grade C (4) or above are normally required for these degree courses so research into progression before application is important.
Our Sport Studies courses are some of the most popular in the college. Our students benefit from superb sports facilities and can train as Sports Leaders alongside their main course. We also have a very successful Shadow Scholars Academy and a Futsal Academy, both run in partnership with Cambridge United.

The sport and leisure industry is one of the largest employers in the world and offers a wide range of career opportunities. There are also many careers within the sports industry which don’t actually involve playing, such as public relations, marketing, coaching and teaching.

Past students have gone on to universities across the country – including UEA, Canterbury, Oxford Brookes and Leeds Met – to study sport psychology, sport rehabilitation and sports science. Students also go straight into work, with career choices including gym manager, sports development officer and sports leader. Many students go on to Higher Education courses at CRC - see pages 172-173.

WHY CHOOSE CRC?
- Extra leadership and fitness qualifications to boost your job opportunities.
- Volunteering in local schools and clubs provides valuable work experience.
- Close links with Cambridge United Football Club.
- Great career options include sports science, coaching and personal training.
- Exciting activities and trips including outdoor pursuits and sports tournaments.

WHAT WE OFFER AT CRC
Level 1
- Sport & Active Leisure
Level 2
- Sport Studies
Level 3
- Sport Studies (Coaching, Development & Fitness)

Two talented footballers on the sports studies course at Cambridge Regional College, have scholarships to play in America.
Sol: “I nearly quit football in Year 10 but I’m grateful I stuck with it. I’m thankful for the support of Cambridge Regional College tutors who pushed me in the right direction and provided stability with the right encouragement for my future.”
Emre: “I never dreamt I could be going to America. The tutors at college bring out the best in people. They help us progress with amazing support and enthusiasm.”

Sol Goodby & Emre Tursucu
Sol Goodby, is going to a college in Texas
Emre Tursucu is going to a college in Kansas
At Cambridge Regional College, we place great importance on providing education and support at all levels. We have a range of provision suitable for students with special educational needs and disabilities, at college and in the community. We have close links with schools to help transition to college and run taster sessions to introduce you to the college and help you make the right choice of programme. We also offer individualised study programmes for students.

SUPPORTED LEARNING COURSES

COURSES

VALUABLE FOR ALL JOBS

CATERING & HOSPITALITY

CONSTRUCTION & ENGINEERING

CAREER MAP:
SKILLS AND QUALITIES

SPORTS/PUBLIC SERVICES/ LAND BASED/HORTICULTURE

IT/BUSINESS/MEDIA/ HAIR & BEAUTY

HEALTH, SOCIAL CARE & EARLY EDUCATION

PRE-ENTRY DURATION: 2 YEARS

Gateway to Improving Choice

The Gateway/IC pathway is for young people aged 16 – 24 who have a variety of complex needs. They may have ASD, high sensory needs and limited communication skills. This pathway is uniquely built around the learner, their needs and their plans for the future.

ENTRY LEVEL 1-2 DURATION: 2 YEARS

Aspire

Aspire is a pathway for students that need to build their skills to move on to the pathways that have more accredited learning within them. Aspire can be a finishing course for Learning for Life students or a starting course for those that want to move on through the Entry 2 and Entry 3 pathways but may require more confidence or ability in basic skills, such as communication.

ENTRY LEVEL 1-2 DURATION: 2 YEARS

Learning for Life

Learning for Life is for young people aged 16 – 24 who have severe learning difficulties. This pathway concentrates on developing communication skills, community participation, building basic skills and skills for life, so that each person is able to make progress in their independence and ability to speak up about their own choices.

ENTRY LEVEL 1-2 DURATION: 2 YEARS

Preparation for Independence

Preparation for Independence pathway is a good starting point for students who have moderate learning difficulties or for those students who have successfully completed our Aspire pathway.

ENTRY LEVEL 1-2 DURATION: 2 YEARS

Pathway

Pathway is a course for students working at Entry 2 who would like to move onto one of our creative or vocational pathways but do not yet have the appropriate levels of English and maths and may need further personal and social development to work with less support. Pathway is for 1 or 2 years.
ENTRY LEVEL 3
DURATION: 2 YEARS

Archway
Archway is an Entry 3 pathway suitable for students with moderate or specific learning difficulties, who need time to develop their confidence, social skills and ability to study with greater independence. A mixture of business, employability, enterprise and life skills this course is an excellent starting point for students who are joining from mainstream or special schools and have already gained Entry 2 qualifications.

ENTRY LEVEL 3 – LEVEL 1
DURATION: 1-2 YEARS

Vocational Pathways
In Supported Learning we have 5 Vocational Pathways. All are 3 days per week with work experience organised on a non-college day. The vocational pathways are all 1 or 2 years in length, (3 years catering only) with a view that they lead on to employment or supported internship.

- Catering and Hospitality (based at St John’s College Cambridge)
- Horticulture
- Retail
- Small Animal Care
- Creative Industries

SUPPORTED INTERNSHIP

Supported Interns
Supported Interns have two days placed with a suitable employer where they are taught carefully and systematically to do the job to a high standard. Students are fully supported at the start and are gradually offered less support so they become more independent. Travel training is also part of the offer.

INTRODUCTION TO SUPPORTED INTERNSHIP

Supported Internship
The introduction to supported Internships is a supported internship and work experience pathway for learners with more severe learning difficulties who are at entry level 1 or 2 but have made significant progress in their confidence and employability that they have the chance to find work, volunteering opportunities or work within a supported enterprise. Learners will build up to a day per week with an employer and work with social enterprises to try out their skills before making decisions about their adult life beyond college. This is a one year pathway and learners need to have successfully completed a pathway within the department before accessing a place on this course.

LEVEL 1

Options
Options is a level 1 employability course for young people who need extra time to decide what route they wish to take. It is a supportive group where young people can have time to develop their social confidence and employability skills. Part of the Options course includes vocational tasters that will aid the young person in choosing their career path.
Travel & Tourism is one of the UK’s fastest-growing industries. Opportunities exist both in the UK and abroad in tour operation, tour management and in the airline industry.

Our courses provide great work experience opportunities with leading travel organisations, from airports to hotels, and exciting visits to external businesses, giving you the skills and knowledge to progress to careers with international companies.

Past students have gone on to universities including ARU and Hertfordshire University, specialising in subjects such as events management and tourism, commercial pilot training and tourism management. Students also choose to go straight into work – for instance in busy city tourist offices – or an Apprenticeship.

WHY CHOOSE CRC?

• Great job opportunities through annual employers’ fair
• Residential and day trips including cultural visits and experiences
• Lecturers with up-to-date industry experience
• Exciting placements with top hotels, airlines and international airports
• Excellent connections with travel companies
This one-year course allows you to explore the UK travel and tourism industry and learn more about UK and European holiday destinations. You will learn how to collect, analyse and interpret data and explore customer service and business environments in travel and tourism. Trips and residential activities form a large part of your study programme.

**Specialist Skills**
- Learning about tourist destinations
- Exploring customer service

**Progression Opportunities**
Progress to employment in the travel industry or to the Level 3 Diploma in Travel & Tourism.

---

“The tutors at CRC are industry trained so we learn real life skills. I cannot praise them more for their support. CRC is a small enough environment for it to feel friendly and supportive. I like that studying here has prepared me for work. I feel this course has meant I am ready to go straight into a job, in an industry that I am passionate about.”

Alithia Elia
Travel and Tourism Level 3 Extended Diploma student preparing to start full time work with the tour operator TUI
LEVEL 3

Travel & Tourism

This two-year course investigates the growing travel and tourism industry in more detail and will allow you to further explore the European travel market, UK destinations and long haul travel. You will learn about key specialist areas of the industry, including air fares and ticketing, the business of travel, hospitality operations and long haul travel. Trips and residential activities form a large part of your study programme and help develop teamwork and practical skills.

Specialist Skills

- Responsible tourism
- Hospitality operations
- Marketing
- Customer service
- Retail business

Progression Opportunities

Progress to employment in the travel and tourism industry or further training such as Higher Education.

"CRC inspired me, gave me the support I needed and helped steer me towards my university course. Without my tutors I may not have found the right way to go. Working as cabin crew is a fun job, sometimes challenging, but always rewarding, every day is different."

SuSu Sawyer – Cabin crew with British Airways. A former Cambridge Regional student is flying high after being inspired to pursue a career in the aviation industry.
The Uniformed Public Services are always looking for physically fit, enthusiastic and well-prepared recruits to train for a variety of careers within the uniformed services, such as the army, navy, air force, police, fire brigade, paramedics, customs & excise and security.

Key skills of leadership, assertiveness, physical fitness and personal responsibility are very important and emphasised in all of our courses. Our students have an exciting programme of external activities, for example adventure training.

Interested in joining the police force? We now have a Police Academy run in collaboration with Cambridge Constabulary, providing specialist police training including traffic, SOCO and firearms.

Past students have gone on to the Royal Marines, Sandhurst Royal Military Academy, the Fire Service, Police Force, Royal Navy, Army Veterinary Corps and Army Medical Corps. Students have also gone on to university to study subjects including criminology and criminal justice, and each year a significant number of Uniformed Services students progress to Higher Education courses at CRC. See pages 172-173 for information.

Why choose Uniformed Public Services?

Level 1
- Uniformed Services
Level 2
- Uniformed Services
Level 3
- Uniformed Services
Level 4/5
- Level 4 HNC Diploma in Public Services
- Level 5 HND Diploma in Public Services
- Level 4 HNC Policing Studies
- Level 5 HND Policing Studies

Why choose CRC?

- Exciting residential and day trips
- Adventure training such as mountain biking and parachuting
- Excellent work experience with the services
- In-college Army Cadet Force and Police Academy
- First class physical training with qualified PT instructors
- Outstanding teaching team includes ex-service personnel
This one-year introductory course will explore the wide range of public service careers. Trips, residential and physical training activities form a large part of your study programme.

**Specialist Skills**
- Forensic detection
- Security in the public services
- Expedition skills
- Public service incidents
- Practical teamwork
- Assisting the public
- Job searching skills

**Progression Opportunities**
Progress to Level 2 Diploma in Uniformed Services.

---

This one-year programme provides the first step in preparing for a career in the uniformed services. Trips, residential and physical training activities form a large part of your study programme.

**Specialist Skills**
- Public service skills
- Improving health and fitness
- Sport and recreation
- Career planning
- Land navigation map and compass skills
- Legal awareness

**Progression Opportunities**
Progress to employment in one of the uniformed services, or to the Level 3 Diploma in Uniformed Services or Sport.
LEVEL 3

Uniformed Services

This two-year programme prepares you for a career in a range of different uniformed services and explores the role of uniformed services and the legislation that affects them. Trips, residential and physical training activities form a large part of your study programme.

Specialist Skills
- Teamwork
- Citizenship
- Physical preparation
- Crime and legal awareness
- Outdoor adventure skills
- Responding to emergencies
- Practical team sports
- Understanding discipline
- Instructing physical activity and exercise
- Planning and management skills for major incidents

Progression Opportunities
Progress to employment in one of the uniformed services, university or Higher Education courses in uniformed services at the college.

LEVEL 4/5

Level 4 HNC Diploma in Public Services
Level 5 HND Diploma in Public Services
Level 4 HNC Policing Studies
Level 5 HND Policing Studies

For further information on these Higher Education courses please see pages 172-173 or visit our website www.camre.ac.uk/HE

POLICE ACADEMY

The college's successful Police Academy is one of very few in the country and provides a headstart to students keen on joining the police force.

Students in the academy receive extra police training on top of their course and work closely with the police - they attend training camps, undergo firearms instruction and play an active role in police training days. They also learn more about the law, visit magistrates’ and crown courts, take a look at custody units - and even check out the cells.

The Academy is open to a limited number of Level 3 Year 1 students, who are carefully chosen for their communication and leadership skills after a series of role plays, puzzles and mental tests. In their second year, when they reach the age of 18, students can become Special Constables alongside their course.

“Coming here has added a lot to my personality. The teaching is so good. The tutors will do anything for you to support your learning. Whatever you need they will try to support you. They will always get the best out of you – the opportunities are here you just have to take them.”

Sannah Clay
L3 UPS moving on to personal trainer course, travelling, then university to become a sports teacher
NEXT STEPS
Once you’ve achieved your qualification with us, you can go on to many things, and we are here to help you make that next step.

FURTHER STUDY
You might want to continue your studies or move to another subject area or specialise further.

EMPLOYMENT
You could head straight into employment and find the right job for you.

HIGHER EDUCATION
You can stay and study higher education courses with CRC across a range of specialist subjects or you can head to university.

APPRENTICESHIPS
You might want to progress to an Apprenticeship to gain employment and on the job training. At CRC we offer Apprenticeships from Level 2 to Level 5.

PROGRESSION TO A DREAM JOB
Many of our students go on to employment and apprenticeships with some of the region’s leading employers; companies like:

Next Steps

PROGRESSION TO HIGHER EDUCATION

Now you’ve achieved your Level 3, you could head straight to university. Alternatively, you could continue to study with us at Levels 4/5 by doing an HNC/HND or Foundation Degree. Or have you decided on a new university subject to study and need to get specific qualifications to get there? Take one of our access to higher education courses.

“I would definitely recommend the further education route. My experience with Cambridge Regional College has been overwhelmingly positive and the opportunities provided by the college environment have really suited me. I’ve always had a passion for art and trying new things – now I’m off to start a new challenge at Oxford Brookes studying Fine Art, it is a dream come true for me”. Mariana Garcia
Our Access programmes are designed for those aged 19 and above who may not yet have had the opportunity to enter Higher Education. The dynamic courses aim to refresh and extend knowledge, skills and confidence to enable you to gain a place at university. Over 100 students a year study on these popular pathways on either a full-time or part-time basis. Courses take one year to complete.

For entry requirements for Access courses please see individual course details on our website. However, normally GCSE at 4 or above or equivalent L2 English and maths are required for entry onto most pathways.

**ACCESS TO HIGHER EDUCATION**

The level of study is equivalent to A Level. Access Diplomas can lead to qualifications such as full Honours Degrees, Higher National Diplomas, Foundation Degrees and Diplomas of Higher Education. You may be eligible for financial support towards costs such as travel, equipment, books and childcare and you may qualify for an Advanced Learner Loan to help pay the tuition fees on your Access programme. If you go on to complete a Higher Education course, you may not have to repay the loan for your Access course.

**ACCESS TO HUMANITIES & SOCIAL SCIENCES**

Study English Literature, History and Sociology and progress to study a variety of Humanities, Arts, Political and Social Science subjects at degree level. Students wishing to study business-related or computing courses at university often take this Access pathway, although students should check with the Higher Education provider whether this pathway is acceptable for particular Business degree courses. The course at Huntingdon will also study units in Psychology, Philosophy and Creative Writing.

**ACCESS TO SCIENCE**

Study any three from Biology, Physics, Chemistry and Mathematics. This pathway also includes a compulsory science practical project which can be tailored to your chosen HE course and your interests (e.g. biological / cosmetic / environmental / pharmaceutical or physical). Former students on the programme have progressed onto a wide range of courses such as Zoology, Marine Biology, Biochemistry, Dietetics and Physics at universities across the UK. GCSE maths and English at grade C or above are normally required for these degree courses so research into progression before application is important.

**ACCESS TO SOCIAL WORK & SOCIAL PROFESSIONS**

Study Sociology, Psychology and Criminology and progress to study on a variety of degree courses including Social Work, Social Policy, Youth Work and Social Sciences. These courses often lead to careers in Social Services, the Housing Sector, Employment services, Health and Welfare Services and the Criminal Justice System. Social Work degree courses often require students to have GCSE maths and English at grade C or above or numerical equivalent. Some will accept alternative Level 2 qualifications. We offer this Access programme as a full-time course, and as a part-time evening class. N.B. Human Biology is offered in the evening not criminology.

**ACCESS TO NURSING & HEALTH PROFESSIONS**

Study Sociology, Psychology and Human Biology and progress to study on a variety of degree courses including Nursing, Midwifery, Paramedic Training and Operating Department Practice (ODP). These degree courses often require students to have GCSE maths and English at grade C or above. Some will accept alternative Level 2 qualifications. Some nursing courses at ARU now require a GCSE Science at grade C in addition to maths, English and the Access Diploma. We offer this Access programme as a full time course, and as a part-time evening class. (N.B. the evening course runs only at CC currently)

**ACCESS TO BUSINESS**

This programme is for those students who are seeking to follow a Higher Education degree in Business-related subjects, Economics, Marketing, Accounting, International Trade, Finance or Management.

**PATHWAYS TO ACCESS**

The CAVA/NOCN Level 2 certificate is a Pre-Access qualification for adults (18+) who have not previously obtained a full Level 2. You will study a broad variety of units designed to help you develop effective research and learning skills. These include study management, critical thinking skills and ICT (presentation / word processing) as well as more academic content within Sociology, Politics and Scientific Research Project units. Students will have the opportunity to improve their Functional Skills in maths and English to Level 2. GCSEs in English and maths are integrated into the programme and will be offered to those who are ready to take these exams. The aims of the course are to provide a progression route for those who wish to apply for the Access to Higher Education Course, other Level 3 qualifications or gain skills and qualifications necessary to gain employment.

Apply now! See pages 36-37 or call us on 01223 226315

www.camre.ac.uk
There’s never been a better time to stay local when it comes to Higher Education – so if you want to avoid high tuition fees and expensive accommodation costs, then Cambridge Regional College could be the answer.

We run a range of Higher Education programmes which combine college-based tuition with e-learning, giving you the opportunity to work while you study. Our BTEC Higher Nationals and Foundation Degrees are highly valued by employers looking for skilled and motivated employees. We work closely with local employers to ensure that their involvement will add to your skills base and thereby enhance your future career opportunities.

Our day release Foundation Degree courses are also a great opportunity for training professionals to advance their career.

Our students love our small class sizes and friendly staff. As part of your course you will carry out practical work-based assignments, giving you valuable job skills. You can choose to top up to a full degree at university or progress straight into employment. You can apply for a student loan from Student Finance England to help you with these fees.

Foundation Degrees (ARU accredited)
- Early Years, Playwork & Education (part-time)
- Construction Management (part-time)
- Architectural Technology (part-time)

Ascentis
- Teacher Training (full-time)

BTEC Level 4/5 HNC/HND Diplomas
- Business (full-time)
- Education and Training (part-time)
- Electrical & Electronic Engineering (part-time)
- General Engineering (part-time)
- Interior Design
- Public Services (full-time)
- Policing (full-time)
- Social and Community Work
- Sport (full-time)

Our students are eligible for a discount
- £1,000 off per annum full time courses
- £500 off per annum part time courses

Apply now! See pages 36-37 or call us on 01223 226315

www.camre.ac.uk
FEES & SUPPORT

Education is free for students under 19 at the start of their course, and there are several financial support schemes that may be available to help you fund additional expenses like travel.

FULL-TIME COURSES

Under 19
Study programmes are free (including tuition, enrolment, examinations and materials) to students who are aged 16-18 years at the start of their programme, with the exception of examination re-sit and re-entry fees. Costs for kit and college trips may be charged but these will be notified to you prior to the start of your course.

19 and over
Students over the age of 18 may have to pay tuition fees and other course related fees, depending on your previous qualifications and age. You may be eligible for free tuition on courses for full Level 2 or 3 qualifications, if you currently do not hold a full Level 2, Level 3, or higher, qualification.

APPRENTICESHIPS
On an Apprenticeship you do not pay any course fees, and you will receive a salary from your employer. For more on Apprenticeships, see pages 24-31.

HIGHER EDUCATION
The tuition fees for your course will depend on the qualification being studied, please check the course details at www.camre.ac.uk/he.

INTERNATIONAL PROGRAMMES
The tuition fees vary depending on the programme and there may be additional fees for accommodation and equipment; find the course details at www.camre.ac.uk/international.

FINANCIAL SUPPORT

16-19 Vulnerable Learner Bursary
You may be eligible for this bursary if you are 16 or over but not yet 19 on 1 September 2020 and are either:
- In care
- Have left care
- Independently receiving Income Support
- Independently receiving Employment Support Allowance and Disability Living Allowance.

This fund can total £1,200 over the academic year dependent on satisfactory attendance and adherence to the student code of conduct.

16-18 Discretionary Bursary
16-18 Discretionary Bursary Funds are available to help students “in real need” (families with a low annual household income), it can be used as a contribution towards college costs such as kit, equipment, residential fees, etc. Where a County Council is unable to provide support with transport costs, then a contribution can be made towards either college or public transport.

Free Meals
Free meals will be offered to learners who receive, or whose parents/carers receive, certain types of income related benefits. Learners must be aged 16-18 on 31 August 2020, if aged 19-25 learners must also have an Education, Health and Care Plan (EHCP) assessed by the Local Authority and be studying a Government funded full-time course.

Childcare Bursary
This specific bursary assists students aged 20+ with a contribution towards term-time childcare costs. Application forms are available online and from our Finance Office. All applications will be financially assessed. Students aged under 20 should apply to Care to Learn for assistance with their childcare fees: www.gov.uk/care-to-learn or contact the Learner Support Helpline on 0300 3508070.

19+ Discretionary Bursary
A discretionary bursary is available to help 19+ students who are enrolled onto a Government funded course and from a low income household with a range of study costs including kit, equipment, books, transport and other learning-related expenses. Students experiencing financial hardship are encouraged to apply.

Advanced Learner Loans
If you are 19+ and not eligible for a tuition subsidy, you may qualify for an Advanced Learner Loan to help pay for your tuition fees. These loans are administered through the Student Loans Company with a minimum loan available of £300 to cover fees for an eligible full Level 3 or higher qualification. For more information on these loans and their eligibility criteria, please visit www.gov.uk/advanced-learner-loans.

Advanced Learner Loan Discretionary Bursary
Learners who are 19 or over, have an approved Advanced Learner Loan and are from a low income household, may apply for a contribution towards the cost of travel and term-time only childcare. To apply, visit - www.camre.ac.uk/learnersupport/financial-support where you can download our Financial Support Application Form or apply online. You can also request a paper copy from the college.

Application for Courses in 2020/2021

Please complete all parts in BLOCK capitals using a ball-point pen, preferably black ink. If you need help completing your form, please contact the Admissions Office on 01223 418448 for Cambridge Campus or 01480 379213 for Huntingdon Campus.

Please complete the application in BLOCK capitals using a ball-point pen. Preferably black ink. If you need help completing your form, please contact the Admissions Office on 01223 418448 for Cambridge Campus or 01480 379213 for Huntingdon Campus.

1. Please enter your surname, forename(s) in full and title.
2. Please enter your date of birth and your age on 31 August 2020.
3. Nationality:

   1. British
   2. Commonwealth
   3. EU
   4. Non EU International
   5. Other (please specify)

4. The ULN is a personal 10-digit number randomly generated and allocated to post 16 learners. It is anonymous and will remain with the learner throughout their lives so that, in the future, all their learning experiences, exam results or qualifications will be linked together.

5. 11-16 Education details: Please complete if you are in full-time education for the past 3 years?

   1. Yes
   2. No
   3. Other

6. Please indicate if you have applied or enrolled at Cambridge Regional College before.

   1. Yes
   2. No

7. We are aware that young people who have been in care, or are carers themselves, move schools more frequently than others or have often missed chunks of schooling through actual absence or as a result of disruption to their lives. If you are aware that you are living on your own or with foster parents, or are caring for someone in your family, we will aim to provide you with additional support and opportunities to catch up with your work. Your circumstances will be treated confidentially and only shared with permission with those staff who need to know. We ask for this information in order that we can provide you with as much support as possible. We will not share your information with any third parties.

8. Residential status:

   1. Full-time
   2. Part-time
   3. Other

9. This section invites you to describe your ethnic origin. It helps us to monitor our Equal Opportunities Policy and is treated in strict confidence.

10. You are invited to tick the relevant additional support boxes if you feel you would benefit from learning or other specialist support. Please let us know if you have/have had an educational support assessment whilst at your previous school/college as this will help us to plan the support you will need at college.

11. Applicants declaring that they have a conviction, caution, reprimand, warning etc. must refer to an advisor who specialises in Welfare & safeguarding for assessment. Students who do not respond to requests for further information relating to convictions or warnings on two occasions, if an applicant is found later to have not disclosed a conviction, caution, reprimand, warning etc. or their location, they risk being excluded from the college in accordance with the Terms and Conditions of Enrolment.

12. Please state your chosen course(s) in order of preference and which college you wish to study at. If you wish, you may bracket your choices to indicate that they are of equal preference.

13. Please indicate if CRC is your first, second or third choice if applying for more than one college.

14. Please indicate what type of course you are applying for.

15. It is important that you discuss your course choice and future career direction. If required, we can arrange for you to attend an individual interview with a Careers Progression Adviser prior to your Welcome Event.

16. Please test the estimated grades for the subjects/courses you are currently studying, or the actual grades of you if you have one of the courses, e.g. GCSE, Foundation, Intermediate etc. If you have any career plans, please note them here.

17. Please tell us how you heard about the college, eg. through school, friend, website or open day.

18. Please tell us how you heard about the college, eg. through school, the course, i.e. GCSE, Foundation, Intermediate etc. or Event.

19. All applicants for full-time courses have to supply a written reference. You should provide at least 2 referees, who should be someone who knows you well, either a personal tutor, a teacher, a partner or a friend. We would request that the reference includes details on the following:

   1. educational performance
   2. work experience
   3. skills and abilities
   4. character
   5. reference to any hobbies or interests

20. Please use this section to provide additional information about yourself, e.g. work experience, interests, skills and other achievements, and why you wish to follow a course at CRC. Applications that have not completed full-time education in school or college please include education/training details in this personal statement.

How We Use Your Personal Information

This privacy notice is issued by the Education and Skills Funding Agency (ESFA), on behalf of the Secretary of State for the Department of Education (DfE), to inform learners how your personal information will be used by the ESFA, the ESFA’s executive agency of the DfE, and any successor bodies to these organisations. For the purposes of relevant data protection legislation, the DfE is the data controller for personal data processed by the ESFA.

Your personal information is used by the DfE to exercise its functions and to meet its statutory responsibilities, including under the Apprenticeships, Skills, Children and Learning Act 2009 and to create and maintain a unique learner number (ULN) and a personal learning record (PLR). Your personal information will be securely destroyed after it is no longer required for these purposes.

Your information may be shared with third parties for education, training, employment or workforce information and research and evaluation to inform the effectiveness of training.

Your personal information may be used by the DfE to identify people who may be at risk of social exclusion or where support you will need at college.

Further information about use of and access to your personal data, details of the ESFA’s functions and authorities and who is responsible for and information about how long we retain your data, and how to change your consent to being contacted, please visit: www.gov.uk/government/publications/esa-privacy-notice

10. It is important that you discuss your course choice and future career direction. If required, we can arrange for you to attend an individual interview with a Careers Progression Adviser prior to your Welcome Event.
