YOUR ROUTE TO A

GREAT CAREER

Vocational education pathways.

IT'S YOUR TIME TO EXPLORE!

EXPLORE YOUR STUDY OPTIONS

We're a vocational college, we offer a range of vocational study courses and options that are alternatives to A-levels for your post-GCSE studies. These routes give you a variety of different study options that may be just right for you. These pathways can lead to great careers and higher education. Over the next few pages, we detail information about each, what the differences are and what you can expect.

- A — Apprenticeships
- FT — Full Time Study Programmes
- TL — T-Levels

FIND A CAREER YOU'LL LOVE

Part of the challenge of finding the right career path is the huge variety of jobs and roles to explore. Not sure what you want to do? Well, we have a few tools and resources that are designed to help you find the right career path for you.

CAREERS COACH

Use our online careers assessment tool, Careers Coach, to open up a whole new world of career opportunities that match your interests and preferences, and will advise you on the best course to take to enter into that profession.

www.camre.ac.uk/careercoach

CAREERS HUB

Visit our Careers Hub for the latest from the college on careers, including a range of Career Spotlight videos of different careers, and hear from employers from a variety of industries on their experiences and what they are looking for.

www.camre.ac.uk/careers-hub

WHICH OPTION IS BEST FOR YOU?

FULL-TIME VS APPRENTICESHIPS VS T-LEVELS

SKILLS

WHATEVER YOUR GOALS

Many of our subjects are available as a full time course or an apprenticeship, and some are available as a T-Level, just look out for the icons in this guide.

FT Full-Time

A Apprenticeships

TL T-Level

PROGRESS ON TO UNIVERSITY

GET YOUR DREAM JOB

FULL-TIME COURSES

WHY CHOOSE FULL-TIME COURSES

Taking the full-time study option means attending college, usually, three days a week to gain the knowledge and skills in your chosen subject. You will also undertake work experience and, for some courses, you will also undertake an Industry Placement for two days a week in term time. You will get full access to all of the College support and facilities available on both campuses.

FT

FT

FULL-TIME COLLEGE STUDY

Full-time college study is right for you if:

You are not quite ready for work and love college life and seeing your friends.

You want to explore the full range and options of a subject.

You love getting involved in special projects, work experience and competitions to help you learn.

Studying with us means much more than just gaining a qualification in your chosen subject area. Your study programme is designed to provide you with the skills that are essential for employment, personal and professional development.

SUBJECT SPECIALISM

WORK EXPERIENCE OR INDUSTRY PLACEMENT

All study programmes will involve some work experience. Some courses will be part of the Industry Placement initiative and you will be required to undertake approximately 315 hours experience in the workplace.

ENRICHMENT

Take part in activities outside of your main vocational area, such as clubs and societies.

PERSONAL DEVELOPMENT

ENGLISH & MATHS

English and maths are highly valued by employers and at CRC you will continue to develop your skills in both. If you have not yet gained a GCSE grade 9-4 (or A*-C) in English and/or maths you will attend classes to study for nationally-recognised qualifications.

PROFESSIONAL DEVELOPMENT PLAN

LEARN FROM INDUSTRY EXPERTS

DEVELOP SKILLS AND CONFIDENCE

APPRENTICESHIP COURSES

WHY CHOOSE AN APPRENTICESHIP

Apprenticeships combine work and study by mixing on-the-job training with an employer, classroom learning at college and self study.

A

A HOW DOES AN APPRENTICESHIP USUALLY WORK?

Apprenticeships combine work and study by mixing on-the-job training with an employer, classroom learning at college and self study.

Apprenticeships are right for you if:

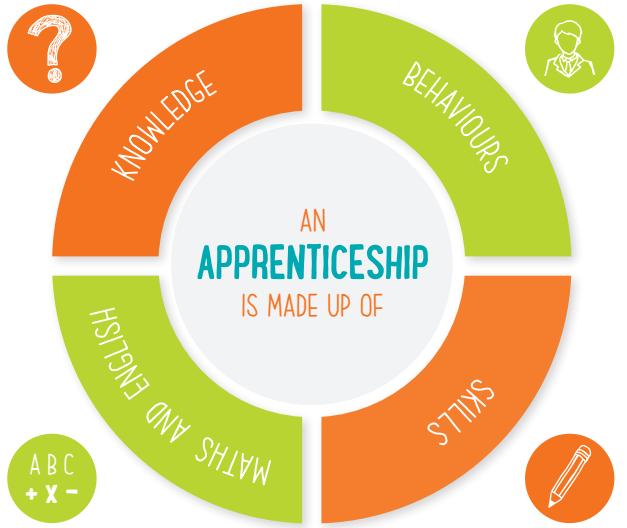

You are ready to commit to a full-time job and start earning.

You know which career you want to go into and want to learn on the job.

You are happy to get support in the form of regular visits from your trainer and, for some programmes, a college day-release to build up your knowledge.

As an apprentice you will be employed full-time, or part-time, with an employer that will support you through your apprenticeship programme. You will attend work, around any college attendance days, where you will gain experience in a professional environment and practice the skills you need for your chosen career.

Usually, you will attend college one day a week to secure the knowledge, understanding and skills required to gain your qualifications, however some programmes such as Engineering require more days in college at the start of the programme. Some other apprenticeship programmes are delivered completely in the workplace.
An assessor-trainer will visit you at work every 8-12 weeks to check your progress.

EQUIVALENT TO 3 A LEVELS

45 DAY INDUSTRY PLACEMENT

T-LEVEL COURSES

WHY CHOOSE A T-LEVEL

T-Levels are an alternative to A-Levels, and full time study programmes, they are a mix of classroom learning and an extended industry placement.

T-LEVELS
THE NEXT LEVEL QUALIFICATION

HOW DOES A T-LEVEL WORK?

Technical Levels, also known as 'T-Levels', are new two-year level 3 programmes designed with employers to ensure young people get the skills industries need.

T-Levels are right for you if:

You want to get substantial work experience on an industry placement but are not yet ready for a job.

You know which specific career you want to go into and want to study it in detail.

You are seeking to go on into work after your T-Level studies.

What studying a T-level includes:

INDUSTRY PLACEMENT

An Industry Placement of at least 45 days in your chosen industry or occupation.

SUBJECT SPECIALISM

COLLEGE / PLACEMENT

Spend 80% of your time learning in college and 20% on a placement.
